Additionally, the board of trustees may approve a final average salary based upon the average of the three (3) highest salaries for members who are at least fifty-five (55) years of age and have a minimum of twentyseven (27) years of Kentucky service credit. (a) The member’s actual salary; or

This limitation shall also not apply to the payment to a member for accrued annual leave or accrued sick leave which is authorized by statute and which shall be included as part of a retiring member’s annual compensation for the member’s last year of active service;

“Annual compensation” means the total salary received by a member as compensation for all services performed in employment covered by the retirement system during a fiscal year. Annual compensation shall not include payment for any benefit or salary adjustments made by the public board, institution, or agency to the member or on behalf of the member which is not available as
a benefit or salary adjustment to other members employed by that public board, institution, or agency. Annual compensation shall not include the salary supplement received by a member under KRS 158.6455 or 158.782 on or after July 1, 1996. Under no circumstances shall annual compensation include compensation that is earned by a member while on assignment to an organization or agency that is not a public board, institution, or agency listed in subsection (4) of this section. In the event that federal law requires that a member continue membership in the retirement system even though the member is on assignment to an organization or agency that is not a public board, institution, or agency listed in subsection (4) of this section, the member’s annual compensation for retirement purposes shall be deemed to be the annual compensation, as limited by subsection (9) of this section, last earned by the member while still employed solely by and providing services directly to a public board, institution, or agency listed in subsection (4) of this section. year. A contract for a member employed by a local board of education may not exceed two hundred sixty-one (261) days in the fiscal year;

(19) “Dependent” as used in KRS 161.520 and 161.525 means a person who was receiving, at the time of death of the member, at least one-half (1/2) of the support from the member for maintenance, including board, lodging, medical care, and related costs;

(20) “Active contributing member” means a member currently making contributions to the Teachers’ Retirement System, who made contributions in the next preceding fiscal year, for whom picked-up member contributions are currently being made, or for whom these contributions were made in the next preceding fiscal year;

(21) “Full-time” means employment in a position that requires services on a continuing basis equal to at least seven-tenths (7/10) of normal full-time service on a fiscal year basis;

(22) “Full actuarial cost,” when used to determine the payment that a member must pay for service credit means the actuarial value of all costs associated with the enhancement of a member’s benefits or eligibility for benefit enhancements, including health insurance supplement payments made by the retirement system. 161.230 Retirement system - Purpose - Name.
The Teachers’ Retirement System is established as of July 1, 1940, for the purpose of providing retirement allowances for teachers, their beneficiaries, and survivors under the provisions of KRS 161.155 and 161.220 to 161.714. The Teachers’ Retirement System of the State of Kentucky shall be an independent agency and
instrumentality of the Commonwealth and this status shall only be amended or changed by the General Assembly. It shall have the powers and the privileges of a corporation and shall be known as the “Teachers’ Retirement System of the State of Kentucky.” Its business shall be transacted, its funds invested, and its cash and securities held in that name, or in the name of its nominee provided that its nominee is authorized by board of trustees’ resolution solely for the purpose of facilitating the transfer of securities. The board of trustees may designate a nominee as provided in KRS 287.225; or it may name as nominee a partnership composed of selected trustees and employees of the system, and formed for the sole purpose of holding legal or registered title of such securities, and for the transfer of securities in accordance with directions of the board of trustees.

**161.250 Board of trustees to control retirement - Membership - Appeals.**

(1) The general administration and management of the retirement system, and the responsibility for its proper operation and for making effective provisions of KRS 161.155 and 161.220 to 161.714 are vested in a board of trustees to be known as the “Board of Trustees of the Teachers’ Retirement System of the State of Kentucky.” The board of trustees shall consist of the chief state school officer, the State Treasurer, and seven (7) other trustees elected as provided in KRS 161.260. Four (4) of the elective trustees shall be members of the retirement system, to be known as teacher trustees, two (2) shall be persons who are not members of the teaching profession, to be known as the lay trustees, and one (1) shall be an annuitant of the retirement system to be known as the retired teacher trustee. One (1) teacher trustee shall be elected annually for a four-year term. The retired teacher trustee shall be elected every four (4) years. The chief state school officer and the State Treasurer are considered ex officio members of the board of trustees and may designate in writing a person to represent them at board meetings.

(2) A member, retired member, or designated beneficiary may appeal the retirement system’s decisions that materially affect the amount of service retirement allowance, amount of service credit, eligibility for service retirement, or eligibility for survivorship benefits to which that member, retired member, or designated beneficiary claims to be entitled. All appeals must be in writing and filed with the retirement system within thirty (30) days of the claimant’s first notice of the retirement system’s decision. For purposes of this
section, notice shall be complete and effective upon the date of mailing of the retirement system’s decision to the claimant at the claimant’s last known address. Failure by the claimant to file a written appeal with the retirement system within the thirty (30) day period shall result in the decision of the retirement system becoming permanent with the effect of a final and unappealable order. Appeals may include a request for an administrative hearing which shall be conducted in accordance with the provisions of KRS Chapter 13B. The board of trustees may establish an appeals committee whose members shall be appointed by the chairperson and who shall have the authority to act upon the report and recommendation of the hearing officer by issuing a final order on behalf of the full board of trustees. A member, retired member, or designated beneficiary who has filed a timely, written appeal of a decision of the retirement system may, following the administrative hearing and issuance of the final order by the board of trustees, appeal the final order of the board of trustees to the Franklin Circuit Court in accordance with the provisions of KRS Chapter 13B.

161.260 Election of members of board of trustees.
An election shall be held on or before June 1 of each year to elect trustees. The trustees to be elected each year shall depend upon the respective terms of the trustees elected under Acts 1938 (1st Ex. Sess.), Ch. 1, paragraph 7 and Acts 1940, Ch. 192, paragraph 7a, and KRS 161.250. Each trustee shall assume office on July 1 following his election and shall serve for a term of four (4) years. The elections shall be conducted by ballot under the supervision of the chief state school officer. Each person who is a contributing member as a result of full-time employment in a position covered by the retirement system or who is an annuitant of the retirement system shall have the right to vote. Each person who is a contributing member as a result of part-time or substitute employment in a position covered by the retirement system shall be permitted to vote as provided in KRS 161.612. Nominations for trustees shall be made by a nominating committee consisting of one (1) committee member selected by the retirement system membership of each of the districts of the Kentucky Education Association, and one (1) committee member to be selected by retired teachers, on a statewide basis, from among the annuitants of the retirement system. No person may be a member of the nominating committee who is not a member of the system, except for the committee member to be selected from among the annuitants of the system. The president of the Kentucky Education Association shall preside over the meeting of the nominating committee and the secretary of the Teachers’ Retirement System shall act as secretary to the committee. Two (2) persons
shall be nominated by the nominating committee for each position to be filled. All expenses of the election shall be paid by the board of trustees out of its general expense fund.

161.270 Vacancies, how filled.
Vacancies occurring during the terms of the elective members shall be filled by the remaining members of the board of trustees by election for the unexpired terms.

161.280 Oath of board members.
Each member of the board of trustees shall, within ten (10) days after his appointment or election, take an oath that he will support the Constitution of the United States and the Constitution of Kentucky, that he will diligently and honestly administer the affairs of the board, and that he will not knowingly violate or willingly permit to be violated any provisions of the law applicable to the retirement system. The oath of office shall be subscribed to by the member making it and certified to by the officer before whom it is taken, and shall be immediately filed in the office of the Secretary of State.

161.290 Meetings, compensation, and expenses of board members.

(1) The board of trustees shall meet on the third Monday during the months of March, June, September, and December of each year. Special meetings may be called by the chairperson upon giving adequate notice to each member of the board of trustees. The business to be transacted at special meetings shall be specified in the notice of the meeting.

(2) The members of the board of trustees shall serve without compensation, except that elective trustees shall receive ninety dollars ($90) for each day the board is in session and all elected trustees shall be reimbursed from the expense fund for all necessary expenses they incur through service to the board without limitation of the provisions of KRS Chapters 44 and 45.

(3) The board of trustees may authorize a per diem, not to exceed ninety dollars ($90) per day, for trustees representing the system on committees or commissions established by statute or for service as an official representative of the board of trustees.

(4) The school district which employs a teacher trustee who is required to attend regular or special meetings of the board of trustees, represent the system on committees or commissions, or serve as an official representative of the board of trustees shall provide the teacher trustee with special leave with pay and pay the compensation for a substitute for the teacher trustee during periods of absence
upon certification by the teacher trustee that the trustee is performing these duties for the system.

Toward this end, the board shall develop procedures for informing the business community of the potential for in-state investments by the retirement fund, accepting and evaluating applications for the in-state investment of funds, and working with members of the business community in executing in-state investments which are consistent with the board's fiduciary responsibilities. The board shall include in the criteria it uses to evaluate in-state investments their potential for creating new employment opportunities and adding to the total job pool in Kentucky. The board may cooperate with the board of trustees of Kentucky Retirement Systems in developing its program and procedures, and shall report to the Legislative Research Commission annually on its progress in placing in-state investments. The first report shall be submitted by October 1, 1991, and subsequent reports shall be submitted by October 1 of each year thereafter. The report shall include the number of applications for in-state investment received, the nature of the investments proposed, the amount requested, the amount invested, and the percentage of applications which resulted in investments.

The board of trustees of the Teachers’ Retirement System shall be responsible for final determination of membership eligibility and may direct employers to take whatever action that may be necessary to correct any error relating to membership.
(2) Service credit shall be forfeited upon withdrawal. If a member again enters service it shall be as a new member, except that any teacher who withdraws by claiming his deposits may repay the system the amount withdrawn plus interest and reestablish his service credit as provided in subsection (3) of this section.
(3) Effective July 1, 1988, and thereafter, an active contributing member of the retirement system with contributing service equal to one (1) year may regain service credit by depositing in the teachers’ savings fund the amount withdrawn with interest at the rate to be set by the board of trustees, and computed from the first of the month of withdrawal and including the month of redeposit.

2. The payment of retirement benefits ordered forfeited shall be stayed pending any appeal of the conviction. If the conviction is reversed on final judgment, no retirement benefits shall be forfeited.

Except for paragraph (e) of this subsection, upon termination of member accounts under this subsection, funds in the account shall be transferred to the guarantee fund. Inactive members may apply for refunds of these funds at any time. If the member is eligible for an immediate service retirement allowance as provided in KRS
161.600, no withdrawal and refund shall be permitted, unless the allowance would prohibit the member from qualifying for Social Security benefits or the member elects to withdraw part or all of his service for the purpose of obtaining credit in another retirement plan. Requests for refund of contributions by the member must be filed on forms prescribed by the Teachers’ Retirement System and the employer shall be financially responsible for all information that is certified on the prescribed form. A member may not withdraw any part of his or her contributions to the retirement system except as provided by this subsection.

A contingent beneficiary may be designated in addition to the primary beneficiary or cobeneficiaries. The member may name more than one (1) contingent beneficiary. Any beneficiary designation made by the member shall remain in effect until changed by the member on forms prescribed by the Kentucky Teachers’ Retirement System, except in the event of subsequent marriage or divorce. Subsequent marriage by the member shall void the primary beneficiary and any cobeneficiary designation and the spouse of the member at death shall be considered as the primary beneficiary, unless the member subsequent to marriage designates another beneficiary. A final divorce decree shall terminate an exspouse's status as either primary beneficiary, cobeneficiary, or contingent beneficiary, unless subsequent to divorce to the member
redesignates the former spouse as primary beneficiary, cobeneficiary, or contingent beneficiary. To the extent permitted by the Internal Revenue Code, a trust may be designated as beneficiary for receipt of a member’s contributions to the retirement system as provided under KRS 161.470(7). A final divorce decree shall not terminate the designation of a trust as beneficiary regardless of who is designated as beneficiary of the trust. The provisions of this section shall be retroactive as they relate to election of beneficiaries by members still in active status on the effective date of this section. The provisions of this section shall not apply to any account from which a member is drawing a retirement allowance or to the life insurance benefit available under KRS 161.655.

161.490 Investigation of statement.
To the extent to which it is used in determining the liability of any fund of the retirement system, the board of trustees shall ascertain the correctness of the statement filed under KRS 161.480 by the best evidence it is able to obtain. If official records are not available as to length of service, age, salary, or other information required for the administration of the retirement system, the board may use its discretion as to the evidence to be accepted.

161.500 Service credit.
(1) At the close of each fiscal year, the retirement system shall add service credit to the account of each member who made contributions to his or her account during the year. Members shall be entitled to a full year of service credit if their total paid days were not less than one hundred eighty (180) days of a one hundred eighty-five (185) day contract for a regular school or fiscal year. In the event a member is paid for less than one hundred eighty (180) days, the member may purchase credit according to administrative regulations established by the board of trustees. In no case shall more than one (1) year of service be credited for all service performed in one (1) fiscal year. Members who complete their employment contract prior to the close of a fiscal year and elect to retire prior to the close of a fiscal year shall have their service credit reduced by eight percent (8%) for each calendar month that the retirement becomes effective prior to July 1.

(2) Members who are employed and paid for less than the number of days required in their normal employment year shall be entitled to pro rata service credit for the fractional service. Such credit shall be based upon the number of days employed and the number of days in the member’s annual employment agreement or normal employment year.

(3) Service credit may not exceed the ratio between the school or fiscal
year and the number of months or fraction of a month the member is employed during that year.

(4) No service credit shall be granted in the Teachers’ Retirement System for service that has been or will be used in qualifying for annuity benefit payments from another retirement system financed wholly or in part by public funds.

161.507 Prior service credit for veterans - Credit for military service and uniformed service by active contributing member.

(1) An active contributing member of the Teachers' Retirement System may receive service credit for active service rendered in the uniformed services of the Armed Forces of the United States, including the commissioned corps of the Public Health Service, subject to the provisions of the Uniformed Services Employment and Reemployment Rights Act of 1994 and to administrative regulations promulgated by the board of trustees. Military service includes service in the uniformed services that occurs before the employment of a member in a position covered by the retirement system or where a member leaves covered employment without giving advance written or verbal notice of performing duty in the uniformed services. Service in the uniformed services also includes uniformed service that occurs after employment in a position covered by the retirement system where the member has given advance written or verbal notice of performing duty in the uniformed services and the member returns directly from uniformed services to covered employment. Military service may be credited only if discharge was honorable or was not terminated upon the occurrence of any of the events listed in 38 U.S.C. sec. 4304. Service shall be considered as Kentucky teaching service, except that service may not be used for meeting the service requirements set forth in KRS 161.600(1)(a) or 161.661(1) unless the service occurred after the member gave written or verbal notice of performing duty in the uniformed services and the member returned directly from uniformed services to covered employment. A maximum of six (6) years of military service may be credited, but in no case a greater number of years than the actual years of contributing service in Kentucky.

(2) No credit shall be granted for military service which has been or will be used in qualifying for annuity benefit payments from another retirement system financed wholly or in part by public funds.

(3) A member having twenty (20) years or more of active duty in the military service, and who is qualified for regular federal retirement benefits based on this military service, may not receive credit for
any military service in the Teachers' Retirement System. This subsection shall apply to service presented for credit on July 1, 1975, and after this date.

(4)  (a) A member receiving retirement credit for active duty in the armed services of the United States prior to employment in a position covered by the retirement system or where the member leaves covered employment without giving advance written or verbal notice of performing duty in the uniformed services shall pay to the retirement system the full actuarial cost of the service credit purchased as provided under KRS 161.220(22). These contributions shall not be picked up, as described in KRS 161.540(2). In purchasing retirement credit for active duty in the armed services, the latest years of service shall be considered first in allowing credit toward retirement. The board of trustees shall adopt a table of actuarial factors to be used in calculating the amount of contribution required for crediting this service.

(b) If military service occurred after the member gave written or verbal notice of performing duty in the uniformed services and the member returns directly from uniformed services to covered employment, the member shall contribute the regular member contribution required by KRS 161.540. The member may make the payment of delayed contributions in a lump sum payment or in installments not to exceed five (5) years beginning with the member's date of reemployment. Interest at the rate of eight percent (8%) per annum shall be charged for delayed contributions beginning with the member's date of reemployment until paid.

(5) An active contributing member of the Teachers' Retirement System may receive service credit for service in the military reserves of the United States or the National Guard. The member may purchase one (1) month of service for each six (6) months of service in the reserves or the National Guard. Notwithstanding any other statute, regulation, or policy to the contrary, the system shall provide a member, upon request, the estimated actuarial cost of the National Guard or military reserves service purchase based upon the information available at the time of the request. The member shall be entitled to enter into a contract with the system at the time of the request to purchase the National Guard or military reserve service by paying to the system the estimated actuarial cost, either by installments or in lump sum. The member shall pay the full actuarial cost of this service in the military reserves or the National
Guard as provided in KRS 161.220(22). Service in the military reserves or the National Guard shall be treated as service earned prior to participation in the system and shall not be used for meeting the service requirements set forth in KRS 161.600(1)(a) or 161.661(1). The payment shall not be picked up by the employer, as described in KRS 161.540(2).

161.515 Out-of-state service credit - Contribution - Kentucky Peace Corps and federal Peace Corps service credit.

(1) For the purposes of this section, "out-of-state service" shall mean service in any state in a comparable position on a full-time basis, which would be covered if in Kentucky.

(2) (a) An active contributing member who has been a contributing member of the retirement system for at least one (1) full scholastic year subsequent to the latest out-of-state service, may present for credit service rendered out of state, not to exceed ten (10) years actually taught as a certified or licensed teacher. With the exception of university faculty members, all members who elect to purchase this service shall pay to the retirement system an amount equal to the current member contribution rate based on the first Kentucky salary of the member subsequent to the out-of-state service, provided this service was rendered after June 30, 1983. In the event this service was rendered prior to July 1, 1983, the contribution rate shall be seven and eighty-four hundredths percent (7.84%). University faculty members shall pay on a contribution rate of seven and eighty-four hundredths percent (7.84%) based on the first Kentucky salary subsequent to the out-of-state service, regardless of when the service was rendered. Members shall pay to the retirement system the employer contribution at the rates set forth in KRS 161.550. In addition, all members shall pay interest on the contributions for this service at a rate to be set by the board of trustees on each annual contribution from the last day of the scholastic year in which the service was rendered to date of payment to the retirement system. The payments shall not be picked up as described in KRS 161.540(2). For each year of which the retirement system shall accept the contribution and interest, one (1) year of service credit shall be given. This credit may not be used to meet the service requirements of KRS 161.525, 161.600, or 161.661, except as provided in subsection (2)(c) of this section. No credit shall be granted
for service which has been or will be used in qualifying for annuity benefit payments from another retirement system financed wholly or in part by public funds;

(b) A member of the retirement system having teaching service in the elementary or secondary schools operated by the United States overseas or in this country, or in a public college or university in Kentucky, not included in the Teachers' Retirement System of the State of Kentucky, may present this service for credit in the retirement system on the same basis as provided above for out-of-state service credit; however, no service may be presented which shall be used as a basis for retirement benefits in any program supported wholly or in part by a public institution or governmental agency. This service when added to service credited under subsection (2)(a) of this section shall not exceed a total of ten (10) years' service credit; and (c) A member having service referred to in subsection (2)(a) or (2)(b) of this section may elect to use this service for meeting the requirements of KRS 161.600(1)(c) by making an additional contribution to the state accumulation fund equal to a member contribution rate of eight percent (8%) for each year so used. These payments shall not be picked up as described in KRS 161.540(2). The salary base to be used in determining this additional contribution shall be the final average salary which is used in calculating the member's regular retirement annuity.

(3) Members entering the Teachers' Retirement System for the first time, July 1, 1976, and after this date, shall not receive credit for service defined in subsections (2)(a) or (2)(b) of this section in excess of one (1) year of credit for each two (2) years of Kentucky service in a covered position or ten (10) years, whichever is the lesser number.

(4) A member, having completed service as a volunteer in the Kentucky Peace Corps created by KRS 154.01-720, may purchase service credit for the time served in the corps on the same basis as provided in this section for the purchase of out-of-state service credit. A member, having completed service as a federal Peace Corps volunteer, may purchase up to two (2) years of service credit for time served in the Peace Corps on the same basis as provided in this section for the purchase of out-of-state service credit.

(5) Notwithstanding any other provisions of this section to the contrary, purchase of service credit for out-of-state teaching, Kentucky Peace Corps, and federal Peace Corps service on July 1, 2005, or thereafter shall be purchasable only at full actuarial cost.
161.520 Payment of accumulated contribution on death.

Upon the death of an active contributing member or upon the death of member retired for disability, except as provided in KRS 161.661(6), the survivors of the deceased member in the following named order, may elect to receive a survivor's benefit payable as follows:

(1) Where there is a surviving widow or widower who is named as the primary beneficiary of the member's retirement account, the benefit shall be:
   (a) One hundred eighty dollars ($180) per month with no restriction on other income;
   (b) Two hundred forty dollars ($240) per month when the surviving widow or widower's total income from all sources does not exceed six thousand six hundred dollars ($6,600) per year or five hundred fifty dollars ($550) per month; or
   (c) If the deceased member has a minimum of ten (10) years of service credit with the Teachers' Retirement System, the surviving widow or widower may apply for an annuity actuarially equivalent to the annuity that would have been paid to the deceased member when eligibility conditions were met. Eligibility for payments would begin at the time the age of the deceased member would have met the requirements of KRS 161.600(1). In exercising this right, the surviving widow or widower shall be entitled to receive an annuity for life, except as provided in subsection (6) of this section. This subsection applies to surviving spouses of members who die on or after July 1, 1978. A surviving widow or widower of a member who dies after July 1, 1978, shall be eligible for benefit payments provided under paragraphs (a) and (b) of this subsection until they begin receiving payments under this provision.

(2) Where there are surviving unmarried children under age eighteen (18) or under age nineteen (19) if a full-time student in high school, the benefit shall be two hundred dollars ($200) per month in the case of one (1) child, three hundred forty dollars ($340) per month in the case of two (2) children, four hundred dollars ($400) per month in the case of three (3) children, and four hundred forty dollars ($440) per month in the case of four (4) or more children. Benefits under this subsection shall apply in addition to benefits which may be payable under subsections (1) and (3) of this section.

(3) Where the survivor is a child age eighteen (18) or older whose mental or physical condition is sufficient to cause his dependency on the deceased member at the time of the member's death, the
benefit shall be two hundred dollars ($200) per month, payable for the life of the child or until the time as the mental or physical condition creating the dependency no longer exists or the child marries. Benefits under this subsection and subsection (2) of this section shall apply to legally adopted survivors provided the proceedings for the adoption were initiated at least one (1) year prior to the death of the member. The mental or physical condition of the adult child shall be revealed by a competent examination by a licensed physician and shall be approved by a majority of a medical review committee as defined in KRS 161.661(13). Benefits under this subsection shall apply in addition to benefits which may be payable under subsections (1) and (2) of this section.

(4) Where the sole eligible survivors are dependent parents aged sixty-five (65) or over, the benefit shall be two hundred dollars ($200) per month for one (1) parent or two hundred ninety dollars ($290) per month for two (2) parents. Dependency of a parent shall be established as of the date of the death of the member.

(5) Where the sole eligible survivor is a dependent brother or sister, the benefit shall be one hundred sixty-five dollars ($165) per month. In order to qualify the brother or sister must have been a resident of the deceased member's household for at least one (1) full year prior to the member's death or must have been receiving care in a hospital, nursing home, or other institution at the member's expense for same period.

(6) The benefit to a child as defined in subsection (2) of this section shall terminate upon the attainment of age eighteen (18) or upon reaching age nineteen (19), if a full-time student in high school, or upon marriage, except that benefits shall continue until the attainment of age twenty-three (23) for an unmarried child who is a full-time student in a recognized educational program beyond the high school level. The benefit to a widow, widower, dependent parent, or dependent brother or sister or dependent child age eighteen (18) or older shall terminate upon marriage, or upon termination of the condition creating the dependency.

(7) The board of trustees shall be the sole judge of eligibility or dependency of any beneficiary, and may require formal application or information relating to eligibility or dependency, including proof of annual income satisfactory to the board. The board of trustees may subpoena records and individuals whenever it deems this action necessary.

(8) No payment of benefits shall be made unless the board of trustees authorizes the payment. The board shall promulgate administrative regulations for the administration of the provisions in this section
and in every case the decision of the board of trustees shall be final as to eligibility, dependency, or disability, and the amount of benefits payable.

(9) In the event that there are no eligible survivors as defined in subsections (1) to (5) of this section, the board of trustees shall pay to the estate or assigns of the deceased member a refund of his accumulated contributions as provided in KRS 161.470(7). If the benefits paid or payable under subsections (1) to (5) of this section and KRS 161.661 shall amount to a sum less than the member's accumulated contributions at the time of death, the board of trustees shall pay to the estate or assigns of the deceased member the balance of the accumulated contributions.

(10) Any person who is receiving benefits and becomes disqualified from receiving those benefits under this section shall immediately notify the Teachers' Retirement System of this disqualification in writing and shall return all benefits paid after the date of disqualification. Failure to comply with these provisions shall create an indebtedness of that person to the Teachers' Retirement System. Interest at the rate of eight percent (8%) per annum shall be charged if the debt is not repaid within sixty (60) days after the date of disqualification. Failure to repay this debt creates a lien in favor of the Teachers' Retirement System upon all property of the person who improperly receives benefits and does not repay those benefits.

161.522 Survivor of member retired for disability may elect annuity. Upon the death of a member retired for disability who had a minimum of twenty-seven (27) years of service at the time of death, except as provided in KRS 161.661(6), the spouse, if named as the beneficiary of the member's account, shall be entitled to elect, in lieu of a refund of the member's account, an annuity actuarially equivalent to the annuity that would have been paid to the deceased member had retirement for service been effective on the day immediately preceding the member's death. In selecting this right, the spouse shall be limited to selecting an option providing a straight life annuity with refundable balance or a term certain option. There shall be a monthly minimum allowance of three hundred dollars ($300) as the basic straight life annuity. This section applies to surviving spouses of members who were receiving benefit payments under KRS 161.520 as of June 30, 1988, and to surviving spouses of members who die on or after July 1, 1984, except that the member shall have been retired for disability with a minimum of thirty (30) years of service if either of these two (2) conditions were met prior to July 1, 1990.
161.525 Death of member eligible to retire - Options of beneficiary - Monthly minimum allowance to surviving spouse.

(1) Upon death of a member in active contributing status at the time of death, who was eligible to retire by reason of service, the spouse, if named as the primary beneficiary of the member's retirement account, or in the absence of an eligible spouse a legal dependent of the member, if named as the primary beneficiary, shall be entitled to elect, in lieu of a refund of the member's account or benefits provided in KRS 161.520, an annuity actuarially equivalent at the attained age of the beneficiary to the annuity that would have been paid to the deceased member had retirement been effective on the day immediately preceding the member's death. Under the provisions of KRS 61.680, benefits shall be processed as if the member retired for service. In exercising this right the spouse or legal dependent shall be limited to selecting an option providing either a straight life annuity with refundable balance or a term certain option. A spouse may receive the annuity provided by this section at the same time as children are qualifying for survivors' benefits under the provisions of KRS 161.520; however, a legal dependent, other than a spouse, may not receive these payments if children have qualified for benefits under that section.

(2) A spouse qualifying for an annuity under subsection (1) of this section may defer the payments in order to reduce the actuarial discounts to be applied due to age.

(3) Upon death of a member in active contributing status at the time of his death, who had a minimum of twenty-seven (27) years of service, the spouse, if named as the primary beneficiary of the member's account shall be entitled to a monthly minimum allowance of three hundred dollars ($300) as the basic straight life annuity. This provision applies to surviving spouses of members who were receiving benefit payments under KRS 161.520 as of June 30, 1986, and to surviving spouses of members who die on or after July 1, 1986.

161.530 Restoration of forfeited account - Exception.
Except as provided in KRS 6.696, if a member, whose account has been forfeited under previous provisions of this section, shall return to teaching in a covered position in Kentucky, and reinstates the lost service credit as provided in KRS 161.470(3), the funds transferred from the member's account shall be restored to his account, without interest, and shall be credited against the payment required for reinstatement of service credit.
161.540 Members’ contributions - Picked-up contributions.

(1) Effective July 1, 1988, each member shall contribute to the retirement system nine and eight hundred fifty-five thousandths percent (9.855%) of annual compensation, except that university faculty members shall contribute eight and three hundred seventy-five thousandths percent (8.375%) of annual compensation. Payments authorized by statute that are made to retiring members for not more than sixty (60) days of unused accrued annual leave shall be considered as part of the member’s annual compensation, and shall be used only for the member’s final year of active service. The contribution of members shall not exceed these applicable percentages on annual compensation. When a member retires, if it is determined that he has made contributions on a salary in excess of the amount to be included for the purpose of calculating his final average salary, any excess contribution shall be refunded to him in a lump sum at the time of the payment of his first retirement allowance. In the event a member is awarded a court-ordered back salary payment the employer shall deduct and remit the member contribution on the salary payment, plus interest to be paid by the employer, to the retirement system unless otherwise specified by the court order.

(2) Each public board, institution, or agency listed in KRS 161.220(4) shall, solely for the purpose of compliance with Section 414(h) of the United States Internal Revenue Code, pick up the member contributions required by this section for all compensation earned after August 1, 1982, and the contributions so picked up shall be treated as employer contributions in determining tax treatment under the United States Internal Revenue Code and KRS 141.010(10). The picked-up member contribution shall satisfy all obligations to the retirement system satisfied prior to August 1, 1982, by the member contribution, and the picked-up member contribution shall be in lieu of a member contribution. Each employer shall pay these picked-up member contributions from the same source of funds which is used to pay earnings to the member. The member shall have no option to receive the contributed amounts directly instead of having them paid by the employer to the system. Member contributions picked-up after August 1, 1982, shall be treated for all purposes of KRS 161.220 to 161.714 in the same manner and to the same extent as member contributions made prior to August 1, 1982.
161.545 Contributions and service credit for substitute service, part-time service, or leave of absence - Contributions not to be picked up.

(1) Members may make contributions and receive service credit for substitute, part-time, or any service other than regular full-time teaching as provided in the administrative regulations of the board of trustees if contributions were not otherwise made as result of the service. Members placed on leave of absence may make contributions and receive service credit for this leave only if contributions are made by the end of the fiscal year next succeeding the year in which the leave was effective as provided in administrative regulations promulgated by the board of trustees. Contributions permitted after August 1, 1982, shall not be picked-up pursuant to KRS 161.540(2).

(2) Active contributing members of the Teachers' Retirement System, or former members who are currently participating in a state-administered retirement system, who were granted leaves of absence since July 1, 1964, for reasons of health as defined under the Federal Family Medical Leave Act of 1993, 29 U.S.C. secs. 2601 et seq., child rearing, or to improve their educational qualifications, and did not qualify at the time of the leave of absence to make contributions to the retirement system for the leave of absence as provided in subsection (1) of this section, may obtain credit for the leave of absence under the following conditions:

(a) The leave of absence shall be verified by a copy of the board of education minutes which granted the leave of absence or by other documentation that was generated contemporaneously with the leave that is determined by the retirement system to reasonably establish that a leave of absence was granted; and

(b) The member shall contribute the required percentage based on the salary received for the year immediately preceding the leave of absence plus interest at the rate of eight percent (8%) compounded annually from the beginning of the school year following the year of the leave of absence, and by depositing in the state accumulation fund an amount equal to this total.

(c) The member shall receive credit for no more than two (2) years under the provisions of this subsection.

(3) Contributions permitted under this section after August 1, 1982, shall not be picked-up pursuant to KRS 161.540(2).
161.5461 Purchase of service credit with rolled-over or transferred retirement funds.

(1) Any active contributing member may purchase service credit as authorized under KRS Chapter 161 by rolling over funds from a previous plan to the extent that rollovers are permitted by the rules set forth in the Internal Revenue Code. The rollovers may be made directly from a previous qualified plan or through a conduit individual retirement account as permitted by the rules set forth in the Internal Revenue Code.

(2) Any active contributing member may purchase service credit as authorized under KRS Chapter 161 by transferring funds directly from a retirement plan maintained by the Commonwealth of Kentucky to the extent that transfers are permitted by the rules set forth in the Internal Revenue Code.

(3) The amount of any transfer or rollover purchase as permitted under subsections (1) and (2) of this section, excluding that portion credited to the medical insurance fund under KRS 161.420(5), shall be credited to the individual member’s account and shall be considered accumulated contributions of the member.

161.5465 Member with twenty years’ service credit may purchase five years’ service credit.

On or after August 1, 1998, a member of the Teachers’ Retirement System in active contributing status who has a minimum of twenty (20) years of service credit may purchase up to a maximum of five (5) years of service credit that is not otherwise purchasable under any of the provisions of KRS 161.230 to 161.716 and that meets the definition of nonqualified service as provided in Section 1526 of the Federal Taxpayer Relief Act of 1997. The member shall pay the full actuarial cost of the service credit as provided in KRS 161.220(22). The payment shall not be picked up by the employer as described in KRS 161.540(2), and the member’s payment shall be credited to the member’s contribution account and shall be considered accumulated contributions of the member. Payment by the member may be by lump sum or by installment payments as provided in KRS 161.597. Notwithstanding any other statute to the contrary, the Kentucky Teachers’ Retirement System shall recognize nonqualified service credit purchased with another retirement system only to the extent that the member had an equivalent number of full months of active employment in the position covered by the other retirement system during the period that the nonqualified service was purchased.
161.547 Member having service as legislator may purchase 4 years’ credit in the retirement system.
A member of the retirement system having service as a Kentucky legislator which is not credited by any retirement system administered by the Commonwealth of Kentucky may present such service, not to exceed four (4) years, for credit in the retirement system by paying the full actuarial cost of the service as determined by the system actuary. The member may purchase all or part of his service as a legislator, but no less than one (1) year of service. The entire payment shall be placed in the teachers’ saving fund.

161.548 Purchase of service credit for service at a regional community mental health and mental retardation service program.
A member of the Teachers’ Retirement System who is in an active contributing status with the system, and who was formerly employed in a regional community mental health and mental retardation service program, organized and operated under the provisions of KRS 210.370 to 210.480, which does not participate in a state-administered retirement system, may obtain credit for the period of his service in the regional community mental health and mental retardation program by paying to the Teachers’ Retirement System the full actuarial cost of the service credit purchased, as provided in KRS 161.220(22). The service credit purchased may not be used for meeting the service requirements set forth in KRS 161.600(1)(a) or 161.661(1). The payment shall not be picked up, as described in KRS 161.540(2), and the entire payment shall be placed in the teachers’ savings fund.

161.549 Purchase of service credit for service at a Federal Head Start agency.
A member of the Teachers’ Retirement System who is in an active contributing status with the system, and who was formerly employed by a Federal Head Start agency, operated under 42 U.S.C. secs. 9831 et seq., which does not participate in a state-administered retirement system, may obtain credit for the period of the member’s service in the Head Start program by purchasing this service credit under the same conditions that out-of-state service credit may be purchased under KRS 161.515. The service credit purchased may not be used for meeting the service requirements set forth in KRS 161.600(1)(a) or 161.661(1). Payment for the service credit purchased may be made in installments in lieu of a lump-sum payment. The payment shall not be picked up, as described in KRS 161.540(2), and the entire payment shall be placed in the teachers’ savings fund.
161.550 State’s contribution to system.
(1) Beginning with July 1, each employer, except as provided under KRS 161.555, shall contribute annually to the retirement system a permanent amount equal to that contributed by members of the retirement system it employs plus an additional three and one-fourths percent (3.25%) of the total of salaries of members of the retirement system it employs to discharge the system's unfunded obligations with interest assumed by the state and to provide funding to the medical insurance fund as provided under KRS 161.420(5).

(2) In addition to the required contributions in subsection (1) of this section, the state shall contribute annually to the retirement system a percentage of the total salaries of the state-funded and federally funded members it employs to provide stabilization funding for the medical insurance fund. This contribution shall be known as the state medical insurance fund stabilization contribution. The percentage to be contributed by the state shall be determined by the retirement system's actuary for each biennial budget period. The percentage to be contributed by the state may be suspended or adjusted by the General Assembly if in its judgment the welfare of the Commonwealth so demands.

(3) Each employer shall remit the required employer contributions to the retirement system under the terms and conditions specified for member contributions under KRS 161.560. The state shall provide annual appropriations based upon estimated funds needed to meet the requirements of KRS 161.155; 161.507(4); 161.515; 161.545; 161.553; 161.605; 161.612; and 161.620(1), (3), (5), (6), and (7). In the event an annual appropriation is less than the amount of these requirements, the state shall make up the deficit in the next biennium budget appropriation to the retirement system. Employer contributions to the retirement system are for the exclusive purpose of providing benefits to members and annuitants and these contributions shall be considered deferred compensation to the members.

161.553 Funding of past statutory benefit improvements - Schedules for appropriations - Cost of living increases.
(1) The cost of providing statutory benefit improvements for annuitants may be funded by annual appropriations from the state on an actuarial amortized basis over the lifetime of the annuitants. The schedules in subsections (1)(a), (1)(b), and (1)(c) of this section are the annual appropriations which shall be made by the state for
benefit improvements approved in the respective fiscal years or bienniums prior to July 1, 2006:

(2) The present values of providing statutory cost-of-living increases for annuitants not included in subsection (1) of this section are to be assigned to the unfunded obligations of the retirement system and are identified as follows:

1986-1988 $34,689,893
1990-1992 $68,107,473
1992-1994 $15,749,976

161.555 Employer contributions for members employed in positions established under federal educational acts.
Each employer employing members of the Teachers’ Retirement System in positions established under educational acts adopted by the federal Congress shall contribute to the Teachers’ Retirement System an amount equal to that contributed by the members of that employer plus an additional two and forty-five hundredths percent (2.45%) for fiscal years 2003 and 2004. Beginning fiscal year 2005 and each year thereafter, each employer shall contribute an amount equal to the employer contribution provided under KRS 161.550.

161.556 Employer contributions for members employed by regional educational cooperatives.
Each regional educational cooperative referred to in KRS 161.220(4)(e) employing members of the Teachers’ Retirement System shall have the employer contributions provided in the same manner as for members employed by local boards of education.

161.560 Deduction and forwarding of teachers’ contributions -Picked-up employee contributions - Correction of omitted member contributions.
(1) Each agency employing members of the retirement system shall deduct from the compensation of each member for each payroll
period subsequent to the date the individual became a member, the percentage of his compensation due under the rates prescribed in KRS 161.540. No later than fifteen (15) days following the end of each payroll period, the agency shall forward all amounts deducted to the Teachers’ Retirement System. The retirement system shall charge the employing agency interest at an annual rate not to exceed twelve percent (12%) for deductions not remitted within the specified fifteen (15) days. Payroll reports, contributions lists, and other data required by administrative regulation of the board of trustees shall be submitted. Employers shall submit an annual report, in compliance with requirements of the retirement system, of member contributions and periods employed to the retirement system no later than August 1 following the completion of each fiscal year. The retirement system may impose a penalty on the employer not to exceed one thousand dollars ($1,000) when the employer does not meet the August 1 reporting date. The deductions shall be made notwithstanding the fact that the salary as a result may be less than the minimum compensation provided by law. Every member shall be deemed to consent and agree to the deductions, and the deductions shall be considered as having been paid to the member. After August 1, 1982, member contributions shall be picked up by the agency pursuant to KRS 161.540(2).

(2) If an employer fails to deduct the correct retirement contribution from a member’s compensation, the member may make the contribution that should have been deducted by the employer and receive retirement credit for the payment. For correction of omitted member contributions that occur more than one (1) year after the year in which the error was made, the employer shall be responsible for paying interest to the retirement system at a rate of eight percent (8%) from the end of the year in which the service was performed to the date of payment.

161.565 Reduction and pick-up of contributions by university faculty members.
Notwithstanding any other provisions of KRS Chapter 161, the contribution of university faculty members may be reduced by amounts up to two and two hundred fifteen thousandths percent (2.215%) if amounts sufficient to replace the reduction are authorized and contributed to the Teachers’ Retirement System by the board of regents of the employing university. After August 1, 1982, any contribution by a university faculty member shall be picked up by the employing university pursuant to KRS 161.540(2).
161.567 Authorization for optional retirement plan for designated employees of certain public universities.

(1) An optional retirement plan is hereby authorized for designated employees of public postsecondary education institutions who are also eligible for membership in the Kentucky Teachers’ Retirement System under KRS 161.220(4)(b) and 161.470(1). The purpose of the optional retirement plan shall be to provide suitable retirement and death benefits, while affording the maximum portability of these benefits to the eligible employees as an alternative to membership in the retirement system. Benefits shall be provided by the purchase of annuity contracts, fixed or variable in nature, or a combination thereof, at the option of the participant. The specific provisions of annuity contracts with respect to the benefits payable to members and their beneficiaries shall prevail over specific provisions relating to the same subjects found in KRS 161.220 to 161.716, other than this section.

(2) The boards of regents of those institutions identified in KRS 161.220(4)(b) shall select no less than two (2) but no more than three (3) companies from which to purchase contracts under the optional retirement plan. As criteria for this selection, the boards of regents shall consider, among other things, the following:

(a) The portability of the contracts offered or to be offered by a company, based on the number of states in which the company provides contracts under similar plans;

(b) The efficacy of the contracts in the recruitment and retention of employees for the various state public postsecondary education institutions;

(c) The nature and extent of the rights and benefits to be provided by the contracts for participating employees and their beneficiaries;

(d) The relation of the rights and benefits to the amount of contributions required;

(e) The suitability of the rights and benefits to the needs and interests of eligible employees and the various state public postsecondary education institutions; and

(f) The ability of the designated companies to provide the rights and benefits under those contracts.

161.568 Eligibility to participate in optional retirement plan.

(1) Eligibility to participate in the optional retirement plan shall be determined by the board of regents of each of the state public postsecondary education institutions identified in KRS 161.220(4)(b). The employees of these institutions of higher
education who are initially employed on or after the implementation date of the optional retirement plan may make an election to participate in the optional retirement plan within thirty (30) days after their employment date. This election shall be irrevocable except as otherwise provided in this subsection. No member of the Kentucky Teachers' Retirement System who terminates employment and is subsequently reemployed by the same or another public postsecondary education institution which participates in the Kentucky Teachers' Retirement System may be eligible to elect to participate in the optional retirement plan unless the date of reemployment is at least six (6) months after the date of termination. Any person who previously elected to participate in the optional retirement plan may irrevocably elect one (1) time during his or her lifetime to change his or her election and to prospectively participate in the Kentucky Teachers' Retirement System. This election to change from the optional retirement plan to Kentucky Teachers' Retirement System shall be effective beginning on the first day of the first month immediately following the date that written application for the election is received in the retirement system's office on forms prescribed by the system. These elections shall be made in writing and filed with the appropriate officer of the employer institution.

(2) Elections of eligible employees hired on or after the implementation date of the optional retirement plan at their employer institution shall be effective on the date of their employment. If an eligible employee hired subsequent to the implementation date at the employer institution fails to make the election provided for in this section, he shall become a member of the regular retirement plan of the Kentucky Teachers’ Retirement System.

161.569 Effect of election to participate - Payment of benefits - Taxation and attachment of benefits - Employer and employee contributions.

(1) Any person electing to participate in the optional retirement plan shall be ineligible for membership in the regular retirement plan of the Kentucky Teachers' Retirement System for as long as he is employed in a position for which the optional retirement plan is available, except as provided in KRS 161.568(1).

(2) Any person electing to participate in the optional retirement plan shall acknowledge in writing that the benefits payable to participants are not the obligation of the Commonwealth of Kentucky or the Kentucky Teachers' Retirement System, and that these benefits and other rights of the optional retirement plan are
the liability and responsibility solely of the designated companies to which contributions have been made.

(3) Benefits shall be payable to optional retirement plan participants or their beneficiaries by the designated companies in accordance with the contracts issued by each company and the retirement plan provisions adopted by each public institution.

(4) Annuity contracts issued under the optional retirement plan and all rights of a participant in the optional retirement plan shall be exempt from any state, local, or municipal tax; assessment for the insolvency of any life, health, or casualty insurance company; any levy or sale, garnishment, or attachment; or any process whatsoever, and shall be unassignable except as otherwise specifically provided by the contracts offered under the optional retirement plan adopted by the respective public institutions of higher education. Except contracts issued and rights accrued in the optional retirement plan on or after January 1, 1998, shall be subject to the tax imposed by KRS 141.020, to the extent provided in KRS 141.010 and 141.0215.

(5) (a) Each institution shall contribute on behalf of each participant in its optional retirement program the following:
   1. To the designated company or companies, an amount equal to the amount that would have been payable to the Kentucky Teachers' Retirement System if the member had elected to participate in that plan instead of the optional retirement plan, less the amount contributed to the Kentucky Teachers' Retirement System pursuant to subparagraph 2. of this paragraph; and
   2. To the Kentucky Teachers' Retirement System, an amount equal to the contribution which would have been payable to the Kentucky Teachers' Retirement System on account of the unfunded liability if the member had elected to participate in that plan instead of the optional retirement plan. The rate of contribution shall be determined annually by the Kentucky Teachers' Retirement System actuary. This payment shall continue to be made on behalf of all participants in the optional retirement plan until July 1, 2018, the current amortization period of the Kentucky Teachers' Retirement System.

(b) Each participant shall contribute an amount equal to the present member contribution to the Kentucky Teachers' Retirement System. Employee Page 1 of 2 contributions to the optional retirement plan shall be made by salary
reduction under either Section 403(b) or 414(h) of the Internal Revenue Code of 1986.

161.580 Individual accounts to be kept - Other data - Summary plan description - Publication - Recipients.

(i) The procedures to be followed in presenting claims for benefits under the plan, and the remedies available under the plan for the redress of claims which are denied in whole or in part.
(4) The board may publish the summary plan description in the form of a comprehensive pamphlet or booklet, or in the form of periodic newsletters which shall incorporate all the information required in the summary plan description within a period of two (2) years. Any changes in statutory requirements or administrative practices which alter the provisions of the plan as described in the summary plan description shall be summarized as required in subsection (2) of this section and furnished to active contributing members in the form of a supplement to a comprehensive booklet, or reported in the periodic newsletter.

(5) The board shall provide to annuitants so much of the summary plan description as they need to understand changes in benefits which apply to them.

161.585 Account of member, and medical records on file, confidential.
(1) Each member’s account shall be administered in a confidential manner and specific data regarding a member shall not be released for publication unless authorized by the member; however, the board of trustees may release member account information to the employer or to other state and federal agencies as it deems necessary.

(2) Medical records which are included in a member’s file maintained by the Teachers’ Retirement System are confidential and shall not be released unless authorized by the member in writing or as otherwise provided by law.

161.590 Service credit at retirement.
(1) At retirement the total service credited to a teacher shall consist of prior and subsequent service rendered by him for which service credit has been allowed.

(2) Kentucky service, presented at the time of retirement, may not be used in calculating benefits under KRS 161.525, 161.620, or 161.661, if such service has been used to increase benefits in another retirement system, not including Old Age and Survivors Insurance Benefits under the Social Security Administration.

(3) No service credit shall be added to a member’s account after the effective date of retirement for service.

161.595 Service credit.
(1) Upon service retirement, a member of the Teachers’ Retirement System may obtain credit for all or any part of the service otherwise creditable under the Kentucky Employees Retirement System, the County Employees Retirement System, or in the service of the United States government for which service credit is not otherwise
given, upon the payment by the member of the full actuarial cost of the service credit purchased as defined in KRS 161.220(22). Such payments shall not be picked up, as described in KRS 161.540(2).

(2) The amount paid under this section shall be considered as accumulated contributions of the individual member.

(3) No person shall be allowed credit for the same period of service in more than one (1) of these three (3) retirement systems.

161.597 Installment payments for purchase of service credit by active contributing members.

(1) A member in active contributing status may purchase any service credit which the member is authorized to purchase by making installment payments in lieu of a lumpsum payment.

(2) To initiate an installment payment plan, a member shall make a written request to the retirement system for an estimate to purchase service credit by making installment payments.

(3) To qualify for installment payments, the total cost of the service purchase, including any chargeable interest, shall exceed one thousand dollars ($1,000).

(4) Installment payments shall be at least fifty dollars ($50) per month and shall be made for a period of time which is not less than twelve (12) months nor more than sixty (60) months. Interest at eight percent (8%) per annum, unless the board specifies in an administrative regulation a different interest rate, shall be charged on all installment payment purchases of service credit that are purchasable at less than full actuarial cost.

(5) Installment payments shall be made on a monthly basis by payroll deduction or electronic fund transfer and forwarded separately to the Teachers' Retirement System on forms or by computer format not later than fifteen (15) days following the end of each month. The payments shall be considered accumulated contributions and shall not be picked up as provided in KRS 161.560, except that subject to approval by the Internal Revenue Service and only as permitted by the Internal Revenue Code, installment payments by payroll deduction shall be made on a tax-deferred basis.

(6) A member may elect to terminate payroll deductions at any time and purchase the remaining service credit by lump-sum payment. A member on a leave of absence may make personal installment payments. Termination of employment in a covered position shall terminate installment payments. If the member is later employed by a different employer in a covered position, the member may request a new estimate and reinstate installment payments. A member that misses two (2) consecutive installment payments shall
be in default. A member in default shall receive service credit on a pro rata basis for the total amount of contributions made by installment payments. A member in default may not reinstate installment payments for twelve (12) months from the date the member was in default.

(7) If a member dies before completing scheduled installment payments, the named beneficiary of the member's retirement account may pay the remaining balance due by a lump-sum payment within thirty (30) days of the death of the member.

161.600 Retirement conditions.

(1) Effective July 1, 1988, a member of the retirement system may qualify for service retirement by meeting one (1) of the following requirements:

(a) Attainment of age sixty (60) years and completion of five (5) years of Kentucky service;

(b) Attainment of age fifty-five (55) years and completion of a minimum of five (5) years of Kentucky service with an actuarial reduction of the basic allowance of five percent (5%) for each year the member's age is less than sixty (60) years or for each year the member's years of Kentucky service credit is less than twenty-seven (27), whichever is the lesser number;

(c) Completion of twenty-seven (27) years of Kentucky service. Out-of-state service earned in accordance with the provisions of KRS 161.515(2) may be used to meet this requirement; or

(d) Completion of the necessary years of service under provisions of KRS 61.559(2)(c) if the member is retiring under the reciprocity provisions of KRS 61.680. A member retiring under this paragraph who has not attained age fiftyfive (55) shall incur an actuarial reduction of the basic allowance determined by the system's actuary for each year the member's service credit is less than twenty-seven (27).

(2) Any person who has been a member in Kentucky for twenty-seven (27) years or more and who withdraws from covered employment may continue to pay into the fund each year until the end of the fiscal year in which he reaches the age of sixty-five (65) years, the current contribution rate based on the annual compensation received during the member's last full year in covered employment, less any payment received for accrued sick leave or accrued leave from an employer. The member shall be entitled to receive a retirement allowance as provided in KRS 161.620 at any time after
withdrawing from covered employment and payment of contributions under this subsection. No member shall make contributions as provided for in this subsection if the member is at the same time making contributions to another retirement system in Kentucky supported wholly or in part by public funds.

(3) Service credit in the Kentucky Employees Retirement System, the State Police Retirement System, the Legislators' Retirement Plan, the County Employees Retirement System, or the Judicial Retirement System may be used in meeting the service requirements of subsection (1)(a), (b), and (c) of this section, provided the service is subsequent to July 1, 1956. Upon death, disability, or service retirement, a member's accounts under all state supported retirement systems shall be consolidated, as provided by this section and by KRS 61.680, for the purpose of determining eligibility and amount of benefits, which shall include medical benefits. Upon determination of benefits, each system shall pay the applicable percentage of total benefits. The effective date of retirement under this subsection shall be determined by each retirement system for the portion of the payments that will be made.

(4) No retirement annuity shall be effective until written application and option election forms are filed with the retirement office in accordance with administrative regulations of the board of trustees.

(5) The surviving spouse of an active contributing member, if named as beneficiary of the member's account, may purchase retirement credit that the member was eligible to purchase prior to the member's death.

161.603 Resumption of teaching by retired member - Waiver of annuity payments.

(1) Any member retired by reason of service may waive his annuity and return to full-time employment in a position covered by the Teachers’ Retirement System. The member shall receive no annuity payments while employed in a covered position, shall waive his or her medical insurance coverage with the Kentucky Teachers’ Retirement System during the period of reemployment, and shall receive the medical insurance coverage that is generally offered by the member’s active employer to the other members of the retirement system employed by the active employer. The member’s estate or, if there is a beneficiary applicable designated by the member, then the beneficiary, shall continue to be eligible for life insurance benefits as provided in KRS 161.655. Service subsequent to retirement shall not be used to improve an annuity, except as provided in subsections (2) and (3) of this section.
(2) Any member who waives regular annuity benefits and returns to teaching or covered employment shall be entitled to make contributions on the salaries received for this service and have their retirement annuity recalculated as provided in the regular retirement formula in KRS 161.620(1) less any applicable actuarial discount applied to the original retirement allowance due to the election of a joint and last survivor option. Retirement option and beneficiary designation on original retirement shall not be altered by post-retirement employment nor shall dependents and spouses of the members become eligible for benefits under KRS 161.520, 161.525, and 161.661 because of post-retirement employment.

(3) When a member returns to full-time teaching or covered employment as provided in subsection (2) of this section, the employer is required to withhold and remit regular retirement contributions. The member must be employed full-time for at least one (1) consecutive contract year to be eligible to improve an annuity. The member will be returned to the annuity rolls on July 1 following completion of the contract year or on the first day of the month following the month of termination of service if full-time employment exceeds one (1) consecutive contract year. Any discounts applied at the time of the original retirement due to service or age may be reduced or eliminated due to additional employment if full-time employment is for one (1) contract consecutive year or longer.

(4) A member retired by reason of service who has been employed the equivalent of twenty-five (25) days or more during a school year under the provisions of KRS 161.605 may waive the member’s retirement annuity and return to regular employment covered by the Teachers’ Retirement System during that school year a maximum of one (1) time during any five (5) year period, beginning with that school year.

161.605 Resumption of employment by retired member - Continuation of retirement allowance - Nonteaching employment.
Any member retired by reason of service may return to work in a position covered by the Kentucky Teachers’ Retirement System and continue to receive his or her retirement allowance under the following conditions:

(1) Any member who is retired with thirty (30) or more years of service may return to work in a full-time or a part-time position covered by the Kentucky Teachers’ Retirement System and earn up to a maximum of seventy-five percent (75%) of the member’s last annual compensation measured on a daily rate to be determined by the board of trustees. For purposes of determining whether the salary
of a member returning to work is seventy-five percent (75%) or less of the member’s last annual compensation, all remuneration paid and benefits provided to the member, on an actual dollar or fair market value basis as determined by the retirement system, shall be considered. Members who were retired on or before June 30, 2002, shall be entitled to return to work under the provisions of this section as if they had retired with thirty (30) years of service. Service credit purchased under the provisions of KRS 161.5465 may not be used to meet the thirty (30) year requirement set forth in this subsection.

(2) Any member who is retired with less than thirty (30) years of service after June 30, 2002, may return to work in a full-time or part-time position covered by the Kentucky Teachers' Retirement System and earn up to a maximum of sixty-five percent (65%) of the member’s last annual compensation measured on a daily rate to be determined by the board of trustees. For purposes of determining whether the salary of a member returning to work is sixty-five percent (65%) or less of the member’s last annual compensation, all remuneration paid and benefits provided to the member, on an actual dollar or fair market value basis as determined by the retirement system, shall be considered.

(3) Reemployment of a retired member under subsection (1) or (2) of this section in a full-time teaching or nonteaching position in a local school district shall be permitted only if the employer certifies to the Kentucky Teachers’ Retirement System that there are no other qualified applicants available to fill the teaching or nonteaching position. The employer may use any source considered reliable including but not limited to data provided by the Education Professional Standards Board and the Department of Education to determine whether other qualified applicants are available to fill the teaching or nonteaching position. The Kentucky Board of Education shall promulgate administrative regulations to establish procedures to determine whether other qualified applicants are available to fill a teaching or nonteaching position and, if not, for filling the position with a retired member who will then be permitted to return to work in that position under subsection (1) or (2) of this section. The administrative regulations shall assure that a retired member shall not be hired in a teaching or nonteaching position by a local school district until the superintendent of the school district assures the Kentucky Teachers' Retirement System that every reasonable effort has been made to recruit other qualified applicants for the position on an annual basis.

(4) Under this section, an employer may employ full-time a number
of retired members not to exceed three percent (3%) of the membership actively employed full-time by that employer. The board of trustees may reduce this three percent (3%) cap upon recommendation of the retirement system’s actuary if a reduction is necessary to maintain the actuarial soundness of the retirement system. The board of trustees may increase the three percent (3%) cap upon a determination that an increase is warranted to help address a shortage in the number of available teachers and upon the determination of the retirement system’s actuary that the proposed cap increase allows the actuarial soundness of the retirement system to be maintained. For purposes of this subsection, “full-time” means the same as defined by KRS 161.220(21). A local school district may exceed the quota established by this subsection by making an annual written request to the Kentucky Department of Education which the department may approve on a year-by-year basis if the statewide quota has not been met. A district’s written request to exceed its quota shall be submitted no sooner than two (2) weeks after the start of the school year.

(5) A member returning to work in a full-time or part-time position under subsection (1) or (2) of this section will contribute to an account with the retirement system that will be administered independently from and with no reciprocal impact with the member’s original retirement account. A member returning to work under subsection (1) or (2) of this section shall make contributions to the retirement system at the rate provided under KRS 161.540. The second account shall independently meet the five (5) year vesting requirement as well as all other conditions set forth in KRS 161.600(1) before any retirement allowance is payable from this account. The retirement allowance accruing under this second account shall be calculated pursuant to KRS 161.620(1)(b). This second account shall not entitle the member to a duplication of the benefits offered under KRS 161.620(7), 161.655, or 161.675, nor shall this second account provide the benefits offered by KRS 161.520, 161.525, 161.661, or 161.663. A member returning to work under subsection (1) or (2) of this section shall waive his or her medical insurance with the Kentucky Teachers’ Retirement System during the period of reemployment and shall receive the medical insurance coverage that is generally provided by the member’s active employer to the other members of the retirement system that the active employer employs. If medical insurance coverage is not available from the employer, the Kentucky Teachers’ Retirement System may provide coverage for the member. A member
returning to work under subsection (1) or (2) of this section shall not be eligible to purchase service credit for any service provided after the member's effective date of retirement but prior to the date that the member returns to work. A member returning to work under subsection (1) or (2) of this section shall not be eligible to purchase service credit that the member would have otherwise been eligible to purchase prior to the member's initial retirement. A member who returns to work under subsection (1) or (2) of this section, or in the event of the death of the member, the member's estate or applicable designated beneficiary, shall be entitled, within ninety (90) days of the posting of the annual report submitted by the employer, to a refund of contributions as permitted and limited by KRS 161.470.

(6) The board of trustees may annually, on July 1, adjust the current daily rate of a member’s last annual compensation, for each full twelve (12) month period that has elapsed subsequent to the member earning his or her last annual compensation, by the percentage increase in the annual average of the consumer price index for all urban consumers for the calendar year preceding the adjustment as published by the Federal Bureau of Labor Statistics, not to exceed five percent (5%) annually. Each annual adjustment shall become part of the member's daily rate base. Failure to comply with the salary limitations set forth in subsections (1) and (2) of this section as may be adjusted by this subsection shall result in a reduction of the member’s retirement allowance or any other benefit to which the member would otherwise be entitled on a dollar-for-dollar basis for each dollar that the member exceeds these salary limitations.

(7) (a) A retired member returning to work under subsection (1) or (2) of this section shall have separated from service for a period of at least one (1) year if returning to work for the same employer on a full-time basis, and at least three (3) months if returning to work for a different employer on a full-time basis. A retired member returning to work under subsection (1) or (2) of this section on a part-time basis shall have separated from service for a period of at least three (3) months before returning to work for any employer.

(b) As an alternative to the separation-from-service requirements in paragraph (a) of this subsection, a retired member who is returning to work for the same employer in a full-time position under subsections (1) and (2) of this section may elect a separation-from-service of not less than two (2) months followed by a forfeiture of the retired member's retirement allowance on a month-to-month basis.
for each month that the member has separated from service for less than twelve (12) full months. A retired member returning to work for the same employer in a part-time position, or for a different employer in a full-time position, may elect an alternative separation-from-service requirement of at least two (2) months followed by a forfeiture of the member's retirement allowance for one (1) month. During the period that the member forfeits his or her retirement allowance and thereafter, member and employer contributions shall be made to the retirement system as a result of employment in any position subject to membership in the retirement system. The member shall contribute to an account with the retirement system subject to the conditions set forth in subsection (5) of this section. For purposes of measuring the separation-from-service requirements set forth throughout this section, a member's separation-from-service begins on the first day following the last day of paid employment for the member prior to retirement.

(c) Failure to comply with the separation-from-service requirements in this subsection voids a member's retirement and the member shall be required to return all the retirement benefits he or she received, with interest, for the period of time that the member returned to work without a sufficient separation from service.

(8) (a) Effective July 1, 2004, local school districts may employ retired members in full-time or part-time teaching or administrative positions without limitation on the compensation of the retired members that is otherwise required by subsections (1) and (2) of this section. Under provisions of this subsection, a local school district may only employ retired members to fill critical shortage positions for which there are no other qualified applicants as determined by the local superintendent. The number of retired members that a local school district may employ under this subsection shall be no more than two (2) members per local school district or one percent (1%) of the total active members employed by the local school district on a full-time basis as defined under KRS 161.220(21), whichever number is greater. Retired members returning to work under this subsection shall be subject to the separation-from-service requirements set forth in subsection (7) of this section. Retired members returning
to work under this subsection shall waive their medical insurance coverage with the retirement system during their period of reemployment and receive medical insurance coverage that is offered to other full-time members employed by the local school district. Retired members returning to work under this subsection shall contribute to an account subject to the conditions set forth in subsection (5) of this section. Retired members returning to work under this subsection shall make contributions to the retirement system at the rate provided under KRS 161.540. The employer shall make contributions at the rate provided under KRS 161.550. Local school districts shall make annual payments to the retirement system on the compensation paid to the reemployed retirees at the rates determined by the retirement system's actuary that reflect any accrued liability resulting from the reemployment of these members.

(b) The Department of Education may employ retired members in full-time or part-time teaching positions without the limitations on compensation otherwise required by subsections (1) and (2) of this section to fill critical shortage areas in the schools it operates, including the Kentucky School for the Blind, the Kentucky School for the Deaf, and the Kentucky Virtual High School. The department shall be subject to the same requirements as local school districts as provided in paragraph (a) of this subsection.

(9) Members who retired on or before June 30, 2002, may, for the fiscal year concluding on June 30, 2007, be reemployed under the one hundred (100) day provisions of this section as they existed on June 30, 2002, except that members returning to work under those provisions shall make contributions to the Kentucky Teachers’ Retirement System at the rate provided under KRS 161.540 and members’ employers shall make contributions to the Kentucky Teachers’ Retirement System at the rates specified under KRS 161.550. Those members returning to work under the one hundred (100) day provisions of this section as they existed on June 30, 2002, shall further waive their medical insurance coverage with the retirement system during the period of reemployment and will instead receive the medical insurance coverage generally provided by their active employer to other members of the retirement system that the active employer employs. If medical insurance coverage is not available from the employer, the Kentucky Teachers’ Retirement System may provide coverage for the member. Notwithstanding
any other statute to the contrary, retired members returning to work shall under no circumstances be permitted to purchase as service credit service provided under the one hundred (100) day provisions of this section as they existed on June 30, 2002. Any member who exceeds the one hundred (100) day limitation of this subsection shall be subject to having his or her retirement voided and be required to return all retirement allowances and other benefits paid to the member or on the member's behalf since the effective date of retirement. In lieu of voiding a member's retirement, the system may reduce the member's retirement allowance or any other benefits to which the member would otherwise be entitled on a dollar-for-dollar basis for each dollar of compensation that the member earns in employment exceeding one hundred (100) days.

(10) The return to work limitations set forth in this section and KRS 161.603 shall apply to retired members who are returning to work in the same position from which they retired, or a position substantially similar to the one from which they retired, or any position listed in KRS 161.220(4) which requires membership in the retirement system. Positions which generally require certification or graduation from a four (4) year college or university as a condition of employment which are created, or changed to remove the position from coverage under KRS 161.220(4) are also subject to the return to work limitations set forth in this section and KRS 161.603. The board of trustees shall determine whether employment in a nonteaching position is subject to this subsection.

(11) The provisions of subsections (1) to (9) of this section are not subject to KRS 161.714.

(12) Retired members may be employed in a part-time teaching capacity by an agency described in KRS 161.220(4)(b) or (n), not to exceed the equivalent of twelve (12) teaching hours in any one (1) fiscal year. Retired members may be employed for a period not to exceed the equivalent of one hundred (100) days in any one (1) fiscal year in a part-time administrative or nonteaching capacity by an agency described in KRS 161.220(4)(b) or (n) in a position that would otherwise be covered by the retirement system. The return to work provisions set forth in subsections (1) to (9) of this section shall not apply to retired members who return to work solely for an agency described in KRS 161.220(4)(b) or (n). Calculation of the number of days and teaching hours for part-time teaching, substitute teaching, or part-time employment in a nonteaching capacity under this section shall not exceed the ratio between a school year and the actual months of retirement for the member during that school year. The board of trustees by administrative
regulation may establish fractional equivalents of a day of teaching service. Any member who exceeds the twelve (12) hour or one hundred (100) day limitations of this subsection shall be subject to having his or her retirement voided and be required to return all retirement allowances and other benefits paid to the member or on the member's behalf since the effective date of retirement. In lieu of voiding a member's retirement, the system may reduce the member's retirement allowance or any other benefit to which the member would otherwise be entitled on a dollar-for-dollar basis for each dollar of compensation that the member earns in employment exceeding twelve (12) hours, one hundred (100) days, or any apportionment of the two (2) combined.

(13) When a retired member returns to employment in a part-time teaching capacity or in a nonteaching capacity as provided in subsection (12) of this section, the employer shall contribute annually to the retirement system on the compensation paid to the retired member at rates determined by the retirement system actuary that reflect accrued liability for retired members who return to work under subsection (12) of this section.

(14) For retired members who return to work during any one (1) fiscal year in both a position described in KRS 161.220(4)(b) or (n) and in a position described under another provision under KRS 161.220(4), and for retired members who return to work in a position described under KRS 161.220(4)(b) or (n) in both a teaching and an administrative or nonteaching capacity, the board of trustees shall adopt a methodology for a pro rata apportionment of days and hours that the retired member may work in each position.

161.607 Employment in position covered by other Kentucky retirement system.

(1) Any member of the Teachers’ Retirement System who enters employment covered by the Kentucky Employees Retirement System, the State Police Retirement System, or the County Employees Retirement System, prior to July 1, 1976, may retain membership in the Teachers’ Retirement System instead of joining the new system.

(2) Retention of membership in the Teachers’ Retirement System by any member of the General Assembly who upon election is a contributing member of the Teachers’ Retirement System shall be effected by conforming with KRS 61.680(4)(c). Members of the General Assembly who retain membership shall make retirement contributions based upon their annual compensation as defined
under KRS 161.220 or on their creditable compensation as defined under KRS 61.510, whichever is the larger amount. Service as a member of the General Assembly may be used to meet the service requirements of KRS 61.680(2)(a) regardless of the system to which contributions are made by the member.

(3) Any member of the Teachers’ Retirement System entering employment as described in subsection (1) of this section must exercise the option within ninety (90) days of the beginning of such employment.

(4) Persons who enter service covered by the Teachers’ Retirement System prior to July 1, 1976, and who hold membership in a Kentucky retirement system financed in whole or part with public funds may retain membership in that system providing the statutes and regulations governing said system make continued membership possible.

(5) Any person who has elected an option provided in this section may cancel such election and gain membership in the system which normally covers the position in which currently employed, provided that such cancellation of option election must be completed prior to January 1, 1977.

161.608 Computation of benefits of member who has an account with another state system.
The provisions of KRS 61.680 are hereby recognized and shall be followed in computing benefits of any member of the Teachers’ Retirement System who also has an account with the Kentucky Employees Retirement System, County Employees Retirement System, or State Police Retirement System.

161.611 Supplemental retirement benefit plan - Purpose - Administration - Eligibility - Payments.
(1) The board of trustees is authorized to provide a supplemental retirement benefit plan for the sole purpose of enabling the employer to apply the same formula for determining benefits payable to all members of the retirement system employed by the employer, whose benefits under the retirement system are limited by Section 415 of the Internal Revenue Code of 1986, as amended from time to time. This plan is intended to constitute a qualified governmental excess benefit plan as described in Section 415 of the Internal Revenue Code.

(2) The board of trustees shall administer this plan and have full discretionary fiduciary authority to determine all questions in connection with the plan. The board of trustees may adopt procedural rules and administrative regulations and may employ
and rely on any legal counsel, actuaries, accountants, and agents as it deems advisable to assist in the administration of this plan.

(3) All members and retired former members in the retirement system shall be eligible to participate in this plan whenever their benefits under the retirement system would exceed the limitation on benefits imposed by Section 415 of the Internal Revenue Code.

(4) On or after the effective date of this plan, the employer shall pay to each eligible member in the retirement system who retires on or after that date and to each former member who retired before that date and his or her beneficiaries a supplemental pension benefit, equal to the amount by which the benefit that would have been payable under the retirement system, without regard to any provision therein incorporating the limitation on benefits imposed by Section 415 of the Internal Revenue Code, exceeds the benefit actually payable, taking into account the limitation imposed on the retirement system by Section 415 of the code. These supplemental pension benefits shall be computed and payable under the same terms and conditions and to the same person as the benefits payable to, or on account of, an eligible member under the retirement system.

(5) Benefits payable under this plan shall not be subject to the dollar limit applicable to eligible deferred compensation plans under Section 457 of the Internal Revenue Code, nor to the “substantial risk or forfeiture” rules of Section 457(f) of the code applicable to ineligible deferred compensation plans. In addition, benefits payable under this plan shall not be taken into account in determining whether any other plan of the employer is an eligible deferred compensation plan under Section 457 of the code.

(6) Funding of benefits payable under this plan shall be provided by the state, as employer, and shall be segregated from funds that are maintained by the retirement system for payment of the regular benefits provided by the retirement system. The employer may establish a grantor trust for payment of benefits provided under this plan, with the employer treated as “grantor” thereof for purposes of Section 677 of the Internal Revenue Code. The rights of any person to receive benefits under this plan are limited to those of a general creditor of the employer.

161.612 Membership of individuals providing part-time and substitute services - Service credit - Participation in benefits.
Effective July 1, 2002, any individual occupying a position on a part-time basis that requires certification or graduation from a four (4) year college
or university as a condition of employment and any individual providing part-time or substitute teaching services that are the same or similar to those teaching services provided by certified, fulltime teachers shall be a member of the Kentucky Teachers’ Retirement System, according to the conditions set forth in this section, if the individual is employed by one (1) of the public boards, institutions, or agencies set forth in KRS 161.220, excluding those public boards, institutions, and agencies described in KRS 161.220(4)(b) and (n). Members providing part-time and substitute services shall participate in the retirement system as follows:

(1) Members providing part-time and substitute services shall accrue service credit as provided under KRS 161.500 and be entitled to a retirement allowance upon meeting the service retirement conditions of KRS 161.600. The board of trustees shall adopt a methodology for accrediting service credit to these members on a pro rata basis. The methodology adopted by the board of trustees may be amended as necessary to ensure its actuarial soundness. The retirement allowance for members providing part-time and substitute services shall be calculated pursuant to KRS 161.620. Members providing part-time and substitute services who meet the service retirement conditions of KRS 161.600 may also be eligible to participate as approved by the board of trustees in the medical insurance program provided by the retirement system under KRS 161.675. Members providing part-time and substitute services shall make contributions to the Kentucky Teachers’ Retirement System at the rate provided under KRS 161.540. A member who provides part-time or substitute services, or in the event of the death of the member, the member’s estate or applicable designated beneficiary, will be entitled, within ninety (90) days of the posting of the annual report submitted by the member’s employer, to a refund of contributions as permitted and limited by KRS 161.470.

(2) The board of trustees shall adopt eligibility conditions under which members providing part-time and substitute services may participate in the benefits provided under KRS 161.520, 161.655, 161.661, and 161.663. The board of trustees may adopt eligibility conditions under which members providing part-time or substitute services may participate in other benefits offered by the retirement system. All eligibility conditions adopted by the board of trustees pursuant to this subsection may be amended as necessary to ensure their actuarial soundness.

(3) In addition to the pro rata methodology adopted by the board of trustees under subsection (1) of this section, members providing part-time and substitute services shall be subject to all limitations
and conditions regarding the accrual, retention, accreditation, and use of service credit that apply to members providing full-time services. In addition to the eligibility conditions set forth by the board of trustees under subsection (2) of this section, members providing part-time and substitute services shall be subject to all limitations and conditions regarding both the eligibility to participate and the extent of participation in any benefit offered under KRS 161.220 to 161.716 that apply to members providing full-time services.

(4) Notwithstanding any other provisions of this section to the contrary, instructional assistants who provide teaching services in the local school districts on a full-time basis in positions covered by the County Employees Retirement System who are used as substitute teachers on an emergency basis for five (5) days or less during any one (1) fiscal year shall not be considered members of the Teachers' Retirement System during that period in which they are serving as substitute teachers for five (5) days or less.

(5) The board of trustees may adopt a pro rata methodology to determine the annual compensation of members providing part-time and substitute services in order to determine benefits provided under KRS 161.661 and 161.663. Members providing part-time and substitute services who had retirement contributions posted to their accounts during the previous fiscal year and who have not had those contributions refunded to them are eligible to vote for the board of trustees.

(6) The board of trustees of the Teachers' Retirement System shall be responsible for final determination of membership eligibility and may direct employers to take whatever action that may be necessary to correct any error relating to membership.

(7) The provisions of this section are not subject to KRS 161.714.

161.614 Court-ordered back salary and reinstatement.
A court order awarding additional back salary to or reinstating a member as a result of employment in a position covered by the Kentucky Teachers' Retirement System shall entitle the member to additional salary or service credit, or both, under the following circumstances:

(1) Members shall make contributions to the Kentucky Teachers’ Retirement System at the rate set forth in KRS 161.540 and members’ employers shall make contributions at the rate set forth in KRS 161.550, with interest accruing on all contributions at the rate of eight percent (8%) per annum from the end of each fiscal year that back salary or the reinstatement was ordered.
Contributions, plus interest, shall be made for each year that back salary or reinstatement was ordered. No service or salary credit shall be credited to a member’s account unless full contributions are paid to the Kentucky Teachers’ Retirement System.

(2) The member may have court-ordered back salary credited to his or her account only to the extent that the member actually received payment for the back salary and only to the extent that the court-ordered back salary is within the salary scale that was available to the member in the covered position for the years that the back salary was awarded. Court-ordered back salary can be credited to the member’s account only as permitted under KRS 161.220(9) and (10). The member may have court-ordered service credited to his or her account only after the retirement system has received the contributions and interest on the full compensation that would normally be earned in the position that is the subject of the litigation.

(3) The member’s employer ordered to pay back salary or to reinstate the member by a court of competent jurisdiction shall provide the retirement system with a breakdown of the back salary awarded to the member on a year-by-year basis.

(4) The calculations of the contributions and interest required to be paid for court-ordered back salary or reinstatement shall be provided by the retirement system to the member or the member’s employer at the member’s or employer’s request. Requests for these calculations shall be made with at least two (2) weeks of advance notice to the retirement system to provide these calculations. The retirement system will calculate accrued interest as of the last day of the month during which payment of the full contributions are made.

(5) For purposes of this section, a settlement agreement that provides back salary or reinstatement, and is adopted by order or judgment of a court of competent jurisdiction or is referenced in an order dismissing the action as settled shall have the same effect as a court order adjudicating the matter. Orders entered by a government board or agency as a result of litigation conducted on an administrative hearing level shall be considered as court orders for the purposes of this section.

(6) Under no circumstances shall a member be entitled to service credit as a result of court-ordered reinstatement that is in violation of the provisions of KRS 161.500.

161.615 Limited defined contribution plan - Purpose - Administration - Eligibility - Payments.

(1) The board of trustees is authorized to implement a limited defined
contribution plan for the sole purpose of providing retirement allowance payments for retired members who have been approved by the retirement system for full-time reemployment as provided in KRS 161.605.

(2) The defined contribution plan shall be administered separately from the regular benefits provided for members of the retirement system, except that the contributions to the plan shall be invested in the same manner as other contributions to the retirement system.

(3) The provisions of this section apply only to those retired members who were permitted to return to work under the critical shortage provisions of KRS 161.605(7) as they existed on June 30, 2002. The provisions of this section shall not apply to any retired member returning to work on or after July 1, 2002.

(4) Separate member accounts shall be maintained for participants in this plan which shall reflect the annual contributions made to the participant’s account based on the rates and interest levels specified in KRS 161.605.

(5) When the retiree’s reemployment terminates, the total contributions and accrued interest in the participant’s account will be paid in a lump-sum payment or on an actuarial straight life monthly basis to the retiree. If the member dies prior to making application for a retirement allowance under this plan, the beneficiary designated by the participant for this plan shall receive a refund of the funds in the account. If there is a remaining balance in the account at the death of the participant after retirement from this plan, it shall be paid to the beneficiary designated by the participant for this benefit.

(6) Retired members shall be eligible to receive their retirement annuity when approved for reemployment and participation in this plan. Service as a reemployed retiree may not be used in any manner for credit under the regular retirement benefit plans provided by the retirement system.

161.620 Retirement allowances - Amount.

(1) The retirement allowance, in the form of a life annuity with refundable balance, of a member retiring for service shall be calculated as follows:

(a) For retirements effective July 1, 1998, and thereafter, except as otherwise provided by this section, the annual allowance for each year of service shall be two percent (2%) of the final average salary for service performed prior to July 1, 1983, and two and one-half percent (2.5%) of the final average salary for service performed after July 1, 1983, for all members not employed by a state college or university. The annual retirement allowance for each year of service performed by members of the Teachers' Retirement System
who are members under the provisions of KRS 161.220(4)(b) or (n) shall be two percent (2%) of the final average salary. Actuarial discounts due to age or service credit at retirement may be applied as provided in this section; and

(b) For individuals who become members of the Kentucky Teachers’ Retirement System on or after July 1, 2002, except those persons who become members under KRS 161.220(4)(b) or (n), and who upon retirement have earned less than ten (10) full years of service credit, the retirement allowance shall be two percent (2%) of the member’s final average salary for each year of service. For individuals who become members of the Kentucky Teachers’ Retirement System on or after July 1, 2002, except those persons who become members under KRS 161.220(4)(b) or (n), and who upon retirement have earned at least ten (10) full years of service credit, the annual allowance for each year of service shall be two and one-half percent (2.5%) of the member’s final average salary.

(c) The board of trustees may approve for members who initially retire on or after July 1, 2004, except those persons who are members under KRS 161.220(4)(b) or (n), a retirement allowance of three percent (3%) of the member’s final average salary for each year of service credit earned in excess of thirty (30) years. This three percent (3%) factor shall be in lieu of the two and one-half percent (2.5%) factor provided for in paragraph (b) of this subsection for every year or fraction of a year of service in excess of thirty (30) years. Upon approval of this three percent (3%) retirement factor, the board of trustees may establish conditions of eligibility regarding the type of service credit that will qualify for meeting the requirements of this subsection. This subsection is optional with the board of trustees and shall not be subject to KRS 161.714.

(d) The retirement allowance of a member at retirement, as measured on a life annuity, shall not exceed the member’s last yearly salary or the member's final average salary, whichever is the greater amount. For purposes of this section, "yearly salary" means the compensation earned by a member during the most recent period of contributing service, either consecutive or nonconsecutive, preceding the member's effective retirement date and shall be subject to the provisions of KRS 161.220(9) and (10).
(2) Effective July 1, 2002, and annually on July 1 thereafter, the retirement allowance of each retired member and of each beneficiary of a retirement option shall be increased in the amount of one and one-half percent (1.5%), provided the retired member had been retired for at least the full twelve (12) months immediately preceding the date that the increase is effective. In the event that the retired member had been retired for less than the full twelve (12) months immediately preceding the date that the increase is effective, then the increase shall be reduced on a pro rata basis by each month that the retired member had not been retired for the full twelve (12) months immediately preceding the effective date of the increase.

(3) Any member qualifying for retirement under a life annuity with refundable balance shall be entitled to receive an annual allowance amounting to not less than four hundred dollars ($400) effective July 1, 2002, and not less than four hundred forty dollars ($440) effective July 1, 2003, multiplied by the service credit years of the member. These minimums shall apply to the retired members receiving annuity payments and to those members retiring on or subsequent to the effective dates listed in this subsection.

(4) The minimum retirement allowance provided in this section shall apply in the case of members retired or retiring under an option other than a life annuity with refundable balance in the same proportion to the benefits of the member and his beneficiary or beneficiaries as provided in the duly-adopted option tables at the time of the member's retirement.

(5) Effective July 1, 2004, the monthly allowance of each retired member and each recipient of a retirement option of the retired member may be increased in an amount not to exceed eight-tenths of one percent (0.8%) of the monthly allowance in effect the previous month, provided the retired member had been retired for at least the full twelve (12) months immediately preceding the date that the increase is effective. In the event that the retired member had been retired for less than the full twelve (12) months immediately preceding the date that the increase is effective, then the increase shall be reduced on a pro rata basis by each month that the retired member had not been retired for the full twelve (12) months immediately preceding the effective date of the increase. The level of increase provided for in this subsection shall be determined by the funding provided in the 2002-2004 biennium budget appropriation.
Effective July 1, 2005, the monthly allowance of each retired member and each recipient of a retirement option of the retired member may be increased in an amount not to exceed seven-tenths of one percent (0.7%) of the monthly allowance in effect the previous month, provided the retired member had been retired for at least the full twelve (12) months immediately preceding the date that the increase is effective. In the event that the retired member had been retired for less than the full twelve (12) months immediately preceding the date that the increase is effective, then the increase shall be reduced on a pro rata basis by each month that the retired member had not been retired for the full twelve (12) months immediately preceding the effective date of the increase. The level of increase provided for in this subsection shall be determined by the funding provided in the 2002-2004 biennium budget appropriation.

Effective July 1, 1990, monthly payments of two hundred dollars ($200) shall be payable for the benefit of an adult child of a member retired for service when the child's mental or physical condition is sufficient to cause dependency on the member at the time of retirement. Eligibility for this payment shall continue for the life of the child or until the time the mental or physical condition creating the dependency no longer exists or the child marries. Benefits under this subsection shall apply to legally adopted survivors provided the proceedings for the adoption were initiated at least one (1) year prior to the death of the member. The board of trustees shall be the sole judge of eligibility or dependency and may require formal application or information relating thereto.

Members of the Teachers' Retirement System shall be subject to the annuity income limitations imposed by Section 415 of the Internal Revenue Service Code.

Compensation in excess of the limitations imposed by Section 401(a)(17) of the Internal Revenue Code shall not be used in determining a member's retirement annuity. The limitation on compensation for eligible members shall not be less than the amount which was allowed to be taken into account by the retirement system in effect on July 1, 1993. For this purpose, an eligible member is an individual who was a member of the retirement system before the first plan year beginning after December 31, 1995.

161.623 Use of unused sick-leave days to determine service credit.

Effective July 1, 1982, and thereafter, a district board of education or other employer of members of the Teachers’ Retirement System may compensate, at the time of retirement for service, an active
contributing member for unused sick-leave days in accordance with this section.

(2) Upon the member’s application for service retirement, the employer shall certify the retiring member’s unused accumulated sick-leave balance to the board of trustees of the Kentucky Teachers’ Retirement System. The member’s sick-leave balance, expressed in days, shall be divided by one hundred eighty-five (185) days to determine the amount of service credit that may be considered for addition to the member’s retirement account for the purpose of determining the retirement allowance under KRS 161.620. Such sick-leave credit shall not be used for the purpose of determining whether the member is eligible to receive a retirement allowance.

(3) The board shall compute the cost to the retirement system of the sick-leave credit for each retiring member and shall bill the last employer of the retiring member for such cost. The employer shall pay the cost of such service credit to the retirement system within fifteen (15) days after receiving notification of the cost from the board.

(4) Retiring members who receive service credit under this section shall not be eligible to receive compensation for accrued sick leave under KRS 161.155(9) or any other statutory provision.

(5) Employer participation is optional and the employer may opt to purchase less service credit than the member is eligible to receive provided the same percentage of reduction is made applicable to all retiring members of the employer during a school fiscal year.

(6) The board of trustees shall formulate and adopt necessary rules and regulations for the administration of the foregoing provisions.

(7) Payments to the retirement system for service credit obtained under this section or for compensation credit obtained under KRS 161.155(9) shall be based on the full actuarial cost as defined in KRS 161.220(22).

161.624 Responsibilities of members.
The employees of the Teachers’ Retirement System shall endeavor to provide full and complete information to all inquiries presented by members or beneficiaries of members. The members or beneficiaries of the members shall assume full responsibility for obtaining adequate and sufficient information concerning their eligibility for retirement benefits, for selection of the type of benefit available to them, and for adherence to the employment restrictions applicable to retired members.
161.630 Benefit options - Change in benefit option - Beneficiary redesignation after retirement.

(1) A member, upon retirement, shall receive a retirement allowance in the form of a life annuity, with refundable balance, as provided in KRS 161.620, unless an election is made before the effective date of retirement to receive actuarially equivalent benefits under options which the board of trustees approves. No option shall provide for a benefit with an actuarial value at the age of retirement greater than that provided in KRS 161.620. This section does not apply to disability allowances as provided in KRS 161.661(1).

(2) The retirement option chosen by a retiree at the time of service retirement shall remain in force unless the retiree elects to make a change under the following conditions:
   
   (a) A divorce, annulment, or marriage dissolution following retirement shall, at the election of the retiree, cancel any optional plan selected at retirement that provides continuing benefits to a spousal beneficiary and return the retiree to a single lifetime benefit equivalent as determined by the board; or
   
   (b) Following marriage or remarriage, or the death of the designated beneficiary, a retiree may elect a new optional plan of payment based on the actuarial equivalent of a single lifetime benefit at the time of the election, as determined by the board. The plan shall become effective the first of the month following receipt of an application on a form approved by the board.

(3) Except as otherwise provided in this section, a beneficiary designation shall not be changed after the effective date of retirement except for retirees who elect the life annuity with refundable balance option or the predetermined years certain and life thereafter option.

(4) A member who experiences a qualifying event under subsection (2) of this section and who elects a new optional plan of payment shall make that election within sixty (60) days of the qualifying event.

161.640 Payment of annuities - Payroll deductions - Electronic fund transfer.

(1) Retirement annuities shall be payable monthly. The first payment to an annuitant shall be made at the payment date at the end of one (1) full payment period after his retirement and shall consist of one (1) regular monthly payment. Retirement for a member receiving one (1) full year of service credit during a fiscal year shall be no earlier than July 1 next following the end of such fiscal year. Notwithstanding any other statutory provisions to the contrary,
members filling positions that customarily require twelve (12) months of service during a fiscal year cannot retire prior to July 1 without a corresponding pro rata reduction in salary and service credit. The board of trustees may determine which positions customarily require twelve (12) months of service during a fiscal year.

(2) The board of trustees may enter into agreements with retired members for payroll deductions when it is deemed in the best interest of the retired members and the retirement system.

(3) All new retirees, on or after July 1, 1998, shall receive their monthly annuity checks by electronic fund transfer. All annuity and survivor monthly allowance payments shall be made by electronic fund transfer by December 31, 1998.

161.643 Records and annual reports for annuitants employed by school districts or agencies - Penalty for noncompliance.
Each school district and agency employing annuitants of the retirement system shall maintain a record of the days employed and the compensation paid to each annuitant and submit an annual report on forms prescribed by the retirement system no later than August 1, following the completion of each fiscal year. The retirement system may impose a penalty on the employer not to exceed one thousand dollars ($1,000) when the employer does not meet the August 1 reporting date or fails to provide the information required for employment of annuitants of the retirement system.

161.650 Death of retired member - Payment to beneficiary.
(1) In the case of death of a member who has retired by reason of service or disability, any portion of the member's accumulated contributions, including member contributions to the state accumulation fund and regular interest to the date of retirement, that has not, and will not be paid as an allowance or benefit shall be paid to the member's beneficiary in such manner as the board of trustees elects.

(2) The member may designate a primary beneficiary or two (2) or more cobeneficiaries to receive any remaining accumulated member contributions payable under this section. A contingent beneficiary may be designated in addition to the primary beneficiary or the cobeneficiaries. The member may designate two (2) or more contingent beneficiaries. To the extent permitted by the Internal Revenue Code, a trust may be designated as beneficiary for receipt of any remaining accumulated member contributions. Any beneficiary designation made by the member shall remain in effect until changed by the member on forms prescribed by the retirement
system, except in the event of subsequent divorce. A final divorce decree shall terminate the beneficiary status of an ex-spouse unless, subsequent to divorce, the member redesignates the former spouse as a beneficiary. A final divorce decree shall not terminate the designation of a trust as beneficiary regardless of who is designated as beneficiary of the trust. In the event that the member fails to designate a beneficiary, any remaining accumulated member contributions shall be payable to the member's estate.

161.655 Life insurance benefit.

(1) Effective July 1, 2000, the Teachers' Retirement System shall:
   (a) Provide a life insurance benefit in a minimum amount of five thousand dollars ($5,000) for its members who are retired for service or disability. This life insurance benefit shall be payable upon the death of a member retired for service or disability to the member's estate or to a party designated by the member on a form prescribed by the retirement system; and
   (b) Provide a life insurance benefit in a minimum amount of two thousand dollars ($2,000) for its active contributing members. This life insurance benefit shall be payable upon the death of an active contributing member to the member's estate or to a party designated by the member on a form prescribed by the retirement system.

(2) The member may name one (1) primary and one (1) contingent beneficiary for receipt of the life insurance benefit. To the extent permitted by the Internal Revenue Code, a trust may be designated as beneficiary for receipt of the life insurance benefit. Any beneficiary designation made by the member shall remain in effect until changed by the member on forms prescribed by the retirement system, except in the event of subsequent divorce. A final divorce decree shall terminate the beneficiary status of an ex-spouse unless, subsequent to divorce, the member redesignates the former spouse as a beneficiary. A final divorce decree shall not terminate the designation of a trust as beneficiary regardless of who is designated as beneficiary of the trust.

(3) Application for payment of life insurance proceeds shall be made to the Teachers' Retirement System together with acceptable evidence of death and eligibility. The reciprocal provisions of KRS 61.680(2)(a) shall not apply to the coverage and payment of proceeds by the life insurance benefit under this section.

(4) Suit or civil action shall not be required for the collection of the proceeds of the life insurance benefit provided for by this section, but nothing in this section shall prevent the maintenance of suit or civil action against the beneficiary or legal representative receiving the proceeds of the life insurance benefit.
161.661 Disability retirement.

(1) Any member who has completed five (5) or more years of accredited service in the public schools of Kentucky after July 1, 1941, may retire for disability and be granted a disability allowance if found to be eligible as provided in this section. Application for disability benefits shall be made within one (1) year of the last contributing service in Kentucky, and the disability must have occurred during the most recent period of employment in a position covered by the Teachers’ Retirement System and subsequent to the completion of five (5) years of teaching service in Kentucky. A disability occurring during the regular vacation immediately following the last period of active service in Kentucky or during an official leave for which the member is entitled to make regular contributions to the retirement system, shall be considered as having occurred during a period of active service. The annual disability allowance shall be equal to sixty percent (60%) of the member’s final average salary. Members with twenty-seven (27) or more years of service credit are eligible for service retirement only.

(2) The provisions of KRS 161.520, 161.525, and subsections (3), (4), and (5) of this section shall not apply to disability retirees whose benefits were calculated on the service retirement formula nor to survivors of these members.

(3) Members shall earn one (1) year of entitlement to disability retirement, at sixty percent (60%) of the member’s final average salary, for each four (4) years of service in a covered position, but any member meeting the service requirement for disability retirement shall be credited with no less than five (5) years of eligibility.

(4) A member retired by reason of disability shall continue to earn service credit at the rate of one (1) year for each year retired for disability. This service shall be credited to the member’s account at the expiration of entitlement as defined in subsection (3) of this section, or when the member’s eligibility for disability benefits is terminated upon recommendation of a medical review committee, and this service shall be used in calculating benefits as provided in subsection (5) of this section, but under no circumstances shall this service be used to provide the member with more than twenty-seven (27) years of total service credit. The service credit shall be valued at the same level as service earned by active members as provided under KRS 161.600 and 161.620.

(5) Any member retired by reason of disability and remaining disabled at the expiration of the entitlement period shall have his disability benefits recalculated using the service retirement formula with service credit as set out in subsection (4) of this section. The
retirement allowance shall be calculated as set forth in KRS 161.620, except that those persons less than sixty (60) years of age shall be considered as sixty (60) years of age. Members having their disability benefits recalculated under this subsection shall not be entitled to a benefit based upon an average of their three (3) highest salaries as set forth in KRS 161.220(9), unless approved otherwise by the board of trustees.

(6) Members who have their disability retirement allowance recalculated at the expiration of the entitlement period shall continue to have coverage under the post-retirement medical insurance program. Restrictions on employment shall remain in effect until the member attains age seventy (70) or until the member’s eligibility is discontinued. KRS 161.520 and 161.525 shall not apply to survivors of disability retirees whose retirement allowances have been recalculated at the expiration of the entitlement period. Members who have their disability retirement allowance recalculated at the expiration of their entitlement period shall be entitled to a minimum monthly allowance of five hundred dollars ($500) as the basic straight life annuity. The minimum allowance shall be effective July 1, 1992, and shall apply to those members who have had their allowance recalculated prior to that date and to disability retirees who will have their benefit allowance recalculated on or after that date.

(7) Effective July 1, 1992, members retired for disability prior to July 1, 1964, shall be entitled to a minimum monthly allowance of five hundred dollars ($500) as their basic straight life annuity and their surviving spouse shall be eligible for survivor benefits as provided in KRS 161.520(1)(a) and (b).

(8) Any member retired by reason of disability may voluntarily waive disability benefits and return to teaching or any member, who is age sixty (60) years or older, may elect to waive disability benefits and retire for service on the basis of service credited to the member on the effective date of the disability retirement.

(9) In order to qualify for retirement by reason of disability a member must suffer from a physical or mental condition presumed to be permanent in duration and of a nature as to render the member incapable of being gainfully employed in a covered position. The incapability must be revealed by a competent examination by a licensed physician or physicians and must be approved by a majority of a medical review committee.

(10) A member retired by reason of disability shall be required to undergo periodic examinations at the discretion of the board of trustees to determine whether the disability allowance shall be continued.
When examination and recommendation of a medical review committee indicate the disability no longer exists, the allowance shall be discontinued.

(11) Eligibility for payment shall begin on the first day of the month following receipt of the application in the Teachers’ Retirement System office, or the first of the month next following the last payment of salary or sick leave benefits by the employer, whichever is the later date.

(12) No person who receives a disability allowance may be employed in a position that entails duties or qualification requirements similar to positions subject to participation in the retirement system either within or without the State of Kentucky. So doing shall constitute a misdemeanor and shall result in loss of the allowance from the first day of this service. A member who applies for and is approved for disability retirement on or after July 1, 2002, and whose annual disability benefit is less than forty thousand dollars ($40,000) may earn income in any occupation other than covered employment only to the extent that the annual income from the other employment when added to the annual disability benefit does not exceed forty thousand dollars ($40,000). For any member who exceeds this limit as a result of income from other employment, the Kentucky Teachers’ Retirement System shall reduce the member’s disability benefit on a dollar-for-dollar basis for each dollar that the member’s combined annual disability benefit and annual income from other employment exceeds forty thousand dollars ($40,000). The board of trustees may annually increase the forty thousand dollar ($40,000) limit by the percentage increase in the annual average of the consumer price index for all urban consumers for the most recent calendar year as published by the Federal Bureau of Labor Statistics, not to exceed five percent (5%). All members who applied for disability retirement before July 1, 2002, and were approved as a result of that application shall be subject to the income limitations as they existed on June 30, 2002. The recipient of a disability allowance who engages in any gainful occupation other than covered employment must make a report of the duties involved, compensation received, and any other pertinent information required by the board of trustees.

(13) The board of trustees shall designate medical review committees, each consisting of three (3) licensed physicians. A medical review committee shall pass upon all applications for disability retirement and upon all applicant statements, medical certifications, and examinations submitted in connection with disability applications. The disposition of each case shall be recommended by a medical
review committee in writing to the retirement system. Members of a medical review committee shall follow administrative regulations regarding procedures as the board of trustees may enact and shall be paid reasonable fees and expenses as authorized by the board of trustees in compliance with the provisions of KRS 161.330 and 161.340. The retirement system may secure additional medical examinations and information as it deems necessary. A member may appeal any final agency decision denying his or her disability retirement application pursuant to the provisions of KRS 161.250(2).

(14) A disability may be presumed to be permanent if the condition creating the disability may be reasonably expected to continue for one (1) year or more from the date of application for disability benefits.

(15) Any member who has voluntarily waived disability benefits or whose disability benefits have been discontinued on recommendation of a medical review committee, may apply for reinstatement of disability benefits. The application for reinstatement must be made to the retirement system within twelve (12) months of the date disability benefits terminated. If the termination of benefits were voluntary, the reinstatement may be made without medical examination if application is made within three (3) months of the termination date. Other applications for reinstatement will be processed in the same manner as new applications for benefits.

(16) No person who is receiving disability benefits under this section may be employed in a position which qualifies the person for membership in a retirement system financed wholly or in part with public funds. Employment in a position prohibited by this subsection shall result in disqualification for those disability benefits from the date of employment in the prohibited position.

(17) Any person who is receiving benefits and becomes disqualified from receiving those benefits under this section, or becomes disqualified from receiving a portion of those benefits due to income from other than covered employment, shall immediately notify the Teachers’ Retirement System of this disqualification in writing and shall return all benefits paid after the date of disqualification. Failure to comply with these provisions shall create an indebtedness of that person to the Teachers’ Retirement System. Interest at the rate of eight percent (8%) per annum shall be charged if the debt is not repaid within sixty (60) days after the date of disqualification. Failure to repay this debt creates a lien in favor of the Teachers’ Retirement System upon all property of the person who improperly receives benefits and does not repay those benefits. The Kentucky
Teachers’ Retirement System may, in order to collect an outstanding debt, reduce or terminate any benefit that a member is otherwise entitled to receive.

161.662 Status of disabled teachers and superintendents.

(1) Teachers and superintendents with continuing status who retire because of disability shall, notwithstanding provisions of KRS 161.720 to 161.810 to the contrary, retain continuing status in the school district from which they retired for twenty-four (24) calendar months from the date of retirement, if the teacher or superintendent:

(a) Is approved for disability retirement under the provisions of KRS 161.661, or

(b) Is approved for disability retirement but elects to have benefits calculated on the service retirement formula under the provisions of KRS 161.661, or

(c) Is disqualified from receiving disability retirement benefits by KRS 161.661(2) but is otherwise eligible for disability retirement under the remaining provisions of KRS 161.661.

(2) (a) If the superintendent recovers from disability and presents written notice of such recovery, supported by the statement of a licensed physician, to the employing board of education within the twenty-four (24) calendar month period but not later than April 15 prior to the beginning of the school term, the board of education shall reinstate the superintendent to active continuing status at the beginning of the school term. If notice of recovery from disability is not presented to the employing board of education within the twenty-four (24) calendar month period, or if the superintendent states to the board, in a verified document, prior to expiration of the twenty-four (24) calendar month period that he or she will not return to employment in the school system, the continuing service contract of the superintendent shall terminate as by retirement under the provisions of KRS 161.661.

(b) If the teacher recovers from disability and presents written notice of such recovery, supported by the statement of a licensed physician, to the superintendent within the twenty-four (24) calendar month period but not later than April 15 prior to the beginning of the school term, the superintendent shall reinstate the teacher to active continuing status at the beginning of the school term. If notice of recovery from disability is not presented to the superintendent within the twenty-four (24) calendar month period, the superintendent shall terminate the continued service of the teacher as by retirement under the provisions of KRS 161.661.
period, or if the teacher states to the superintendent, in a verified document, prior to expiration of the twenty-four (24) calendar month period that he or she will not return to employment in the school system, the continuing service contract of the teacher shall terminate as by retirement under the provisions of KRS 161.661.

(3) Retirement because of disability under this section shall not be cause for termination of the contract of a teacher or superintendent under KRS 161.790 during the twenty-four (24) calendar month period described in this section. A teacher or superintendent who applies for disability retirement under the provisions of KRS 161.661 shall retain continuing service status during the period of time the application for disability retirement is being processed. If the application is not approved, the teacher or superintendent may return to the contract, employment, or leave status held prior to submission of the application.

(4) (a) If the superintendent recovers from the disability and presents written notice of such recovery, supported by the statement of a licensed physician, to the employing board of education within twenty-five (25) through forty-two (42) months from the date of retirement, the board shall give priority consideration to reemployment of the superintendent for the first available position for which the superintendent is qualified and certified.

(b) If the teacher recovers from the disability and presents written notice of such recovery, supported by the statement of a licensed physician, to the superintendent within twenty-five (25) through forty-two (42) months from the date of retirement, the superintendent shall give priority consideration to reemployment of the teacher for the first available position for which the teacher is qualified and certified.

161.663 Disability retirement with less than required years of service.
Any active contributing member with less than five (5) years of Kentucky service may apply and be approved for disability retirement under KRS 161.661 if the member is found to be mentally or physically incapacitated as a result of an injury related directly to their covered employment. All conditions and restrictions specified under KRS 161.661 shall be applicable, except that the initial annual disability allowance shall be equal to fifty percent (50%) of the member’s current annual contract salary and the member’s last annual contract salary shall be used in lieu of the final average salary in the recalculation of the member’s benefit at the expiration of the eligibility period.
161.675 Hospital and medical benefits for eligible recipients of retirement allowances from Teacher’s Retirement System - Health insurance supplement payments - Coverage for spouses, dependents, and disabled children of retirees - Exemption from premium tax.

(1) The board of trustees shall arrange by appropriate contract or on a self-insured basis to provide a broad program of group hospital and medical insurance for present and future eligible recipients of a retirement allowance from the Teachers’ Retirement System. The board of trustees may also arrange to provide health insurance coverage by health maintenance organizations as defined in KRS 18A.225 as an alternative to group hospital and medical insurance for persons eligible for hospital and medical benefits under this section. The board of trustees may authorize present and future eligible recipients of a retirement allowance from the Teachers’ Retirement System who are less than age sixty-five (65) to be included in the state-sponsored health insurance that is provided to active teachers and state employees under KRS 18A.225. Members who are sixty-five (65) or older and retired for service shall not be eligible to participate in the state employee health insurance program as described in KRS 18A.225.

(2) The coverage provided shall be as set forth in the contracts and the administrative regulations of the board of trustees. The board of trustees may change the levels of coverage and eligibility conditions to meet the changing needs of the annuitants and when necessary to contain the expenses of the insurance program within the funds available to finance the insurance program. The contracts and administrative regulations shall provide for but not be limited to hospital room and board, surgical procedures, doctors’ care in the hospital, and miscellaneous hospital costs. An annuitant whose effective date of retirement is July 1, 1974, and thereafter, must have a minimum of five (5) years’ creditable Kentucky service in the Teachers’ Retirement System or five (5) years of combined creditable service in the state-administered retirement systems if the member is retiring under the reciprocity provisions of KRS 61.680 and 61.702. A member retiring under the reciprocity provisions of KRS 61.680 and 61.702 may not elect coverage through more than one (1) of the state-administered retirement systems. The board of trustees shall offer coverage to the disabled child of an annuitant regardless of the disabled child’s age if the annuitant pays the entire premium for the disabled child’s coverage. A child shall be considered disabled if he has been determined to be eligible for federal Social Security disability benefits.
(3) All expenses for benefits under this section shall be paid from the funding provisions contained in KRS 161.420(5), premium charges received from the annuitants and the spouses, and from funds that may be appropriated or allocated by statute.

(4) (a) The board of trustees shall determine the amount of health insurance supplement payments that the Teachers’ Retirement System will provide to assist eligible annuitants in paying the cost of their health insurance, based on the funds available in the medical insurance fund. The board of trustees shall establish the maximum monthly amounts of health insurance supplement payments that will be made by the retirement system for eligible annuitants. The board of trustees shall annually establish the percentage of the maximum monthly health insurance supplement payment that will be made, based on age and years of service credit of eligible recipients of a retirement allowance. Monthly health insurance supplement payments made by the retirement system may not exceed the amount of the single coverage insurance premium chosen by the eligible annuitants. In order to qualify for health insurance supplements made by the retirement system, the annuitant must agree to pay the difference between the insurance premium and the applicable supplement payment, by payroll deduction from his retirement allowance, or by a payment method approved by the retirement system.

(b) The board of trustees may offer, on a full-cost basis, health care insurance coverage provided by the retirement system to spouses and dependents of eligible annuitants not otherwise eligible for regular coverage. Recipients of a retirement allowance from the retirement system must agree to pay the cost of this coverage by payroll deduction from their retirement allowance or by a payment method approved by the retirement system.

(c) The board of trustees shall offer, on a full-cost basis, health insurance coverage provided by the retirement system to the disabled child of an annuitant, regardless of the age of the disabled child. A child shall be considered disabled for purposes of this section if the child has been determined to be eligible for federal Social Security disability benefits.

(5) The board of trustees is empowered to require the annuitant and the annuitant’s spouse to pay a premium charge to assist in the financing of the hospital and medical insurance program. The board of trustees is empowered to pay the expenses for insurance coverage from the medical insurance fund, from the premium charges
received from the annuitants and the spouses, and from funds that may be appropriated or allocated by statute. The board may provide insurance coverage by making payment to insurance carriers including health insurance plans that are available to active and retired state employees and active teachers, institutions, and individuals for services performed, or the board of trustees may elect to provide insurance on a “self-insurance” basis or a combination of these provisions.

(6) The board of trustees may approve health insurance supplement payments to eligible annuitants who are less than sixty-five (65) years of age, as reimbursement for hospital and medical insurance premiums made by annuitants for their individual coverage. Eligible annuitants or recipients are those annuitants who are not eligible for Medicare and who do not reside in Kentucky or in an area outside of Kentucky where comparable coverage is available. The reimbursement payments shall not exceed the minimum supplement payment that would have been made had the annuitant lived in Kentucky. Eligible annuitants or recipients shall submit proof of payment to the retirement system for hospital and medical insurance that they have obtained. Reimbursement payments shall be made on a quarterly basis.

(7) Contracts negotiated may include the provision that a stated amount of hospital cost or period of hospitalization shall incur no obligation on the part of the insurance carrier or the retirement system.

(8) The board of trustees is empowered to promulgate administrative regulations to assure efficient operation of the hospital and medical insurance program.

(9) Premiums paid for hospital and medical insurance coverage procured under authority of this section shall be exempt from any premium tax which might otherwise be required under KRS Chapter 136. The payment of premiums by the insurance fund shall not constitute taxable income to an insured recipient.

(10) In the event that a member is providing services on less than a full-time basis under KRS 161.605, the retirement system may pay the full cost of the member’s health insurance coverage for the full fiscal year that the member is providing those services, at the conclusion of which, the retirement system may then bill the active employer and the active employer shall reimburse the retirement system for the cost of the health insurance coverage incurred by the retirement system on a pro rata basis for the time that the member was employed by the active employer.
161.680 Mistake in payment - Correction of error.
If any change or error in a record results in any individual receiving from the retirement system more or less than the individual was entitled to receive, the board of trustees shall, when the error is discovered, correct the error, and as far as practicable adjust the payments so that the actuarial equivalent of the benefit to which the individual was entitled shall be paid.

161.690 Falsifying record prohibited.
No person shall knowingly make any false statement, nor shall any person falsify or permit to be falsified any record of the retirement system in an attempt to defraud the system.

161.700 Funds exempt from taxation and process - Taxability after December 31, 1997 - Benefits not considered marital property.
(1) The right of a member to a retirement allowance and to the return of contributions, any benefit or right accrued or accruing to any person under the retirement system, and the money in the various funds of the retirement system are exempt from any state or municipal tax, are not subject to execution, garnishment, attachment, or other process, and are unassignable except as provided in this chapter, and except for court or administratively ordered current child support, owed child support, or to-be-owed child support. Except retirement benefits accrued or accruing to any person under this retirement system on or after January 1, 1998, shall be subject to the tax imposed by KRS 141.020, to the extent provided in KRS 141.010 and 141.0215.

(2) Retirement allowance, disability allowance, accumulated contributions, or any other benefit under the retirement system shall not be classified as marital property pursuant to KRS 403.190(1). Retirement allowance, disability allowance, accumulated contributions, or any other benefit under the retirement system shall not be considered as an economic circumstance during the division of marital property in an action for dissolution of marriage pursuant to KRS 403.190(1)(d).

161.710 Local system merged with state system.
(1) The local retirement systems merged with the state retirement system under the provisions of 1938 Ky. Acts (1st Ex. Sess.), ch. 1, sec. 49, shall be discontinued. The payment of all benefits to members on the retired roll at the time of discontinuance shall become the obligation of the school district in which the local system was operated prior to its discontinuance. The method of determining
and paying refundable deposits due members of the local system shall be as provided in 1938 Ky. Acts (1st Ex. Sess.), ch. 1, sec. 49.

(2) Payments to annuitants in cities of the first class or in areas formerly constituting a city of the first class which have been consolidated with their county shall not exceed the amount being received by them at the time the local retirement system is discontinued. The sum that remains after the death of all annuitants shall be used by the local board of education for general school purposes.

(3) The local board of education shall continue to invest the funds transferred to it for the benefit of the existing annuitants as long as such annuitants live. Such investment shall be governed by 1934 Ky. Acts, ch. 65, Art. IX, except that the local board of education is substituted for the board of trustees of the local retirement system. The local board of education shall keep all funds transferred to it by the local retirement system and all income from the investment of such funds in a separate fund to be known as the annuity fund. The local board of education may pay from the fund any reasonable expenses necessary for the fund’s administration and general management. The local board of education shall safeguard the fund by requiring such additional surety bond of the treasurer as it deems necessary, by providing for an annual audit by a reputable auditing firm, by spreading on the minutes of the board of education at least annually a report of investments, assets, and liabilities, and the names, addresses, and annuities of annuitants, and by making such an appropriation to the fund from local school revenues as will guarantee the full and complete discharge of all obligations to annuitants.

161.714 Inviolable contract - Exception.
It is hereby declared that in consideration of the contributions by members and in further consideration of benefits received by the state from the member’s employment, KRS 161.220 to 161.710 shall constitute, except as provided in KRS 6.696, an inviolable contract of the Commonwealth, and the benefits provided herein shall, except as provided in KRS 6.696, not be subject to reduction or impairment by alteration, amendment, or repeal.

161.716 Federal laws take precedence over Kentucky statutes pertaining to Teachers’ Retirement System.
In the event that federal laws are in conflict with the Kentucky Revised Statutes pertaining to the Teachers’ Retirement System, federal laws shall take precedence. When necessary to comply with federal laws, the board of trustees may defer or stop payments of allowances until the conflict is
resolved. The board of trustees shall adopt such regulations as are necessary
to remove any conflicts with federal laws and to protect the interests of the
members, survivors of members and the system.

161.990 Penalties.
(1) Any person who violates any provisions of KRS 161.164 shall be
guilty of a Class A misdemeanor. Any school board candidate or

6.350 Actuarial analysis required for bill before General Assembly to
increase benefits or participation in public retirement system.
(1) A bill which would increase the benefits or increase participation
in the benefits or change the financial liability of any public
retirement system administered by an agency of state government
shall not be reported from a legislative committee of either house
of the General Assembly for consideration by the full membership
of that house unless the bill is accompanied by an actuarial analysis.

(2) (a) An actuarial analysis required by this section must show
the economic effect of the bill on the public retirement
system, including a projection of the annual cost to the
system of implementing the legislation for at least ten (10)
years. If a bill proposes to increase benefits, increase benefit
participation, or provide liability assumption for more than
one (1) public retirement system, the actuarial analysis shall
project costs for each affected state-administered public
retirement system. An actuarial analysis shall state the
actuarial assumptions and methods of computation used
in the analysis and shall state whether or not the bill or
resolution, if enacted, would, in the opinion of the actuary,
made the affected public retirement system actuarially
unsound or, in the case of a system already actuarially
unsound, more unsound. An advanced funding actuarial cost method shall be used in all cost projections.

(b) An actuarial analysis required by this section shall be prepared by an actuary who is a fellow of the Society of Actuaries, a member of the American Academy of Actuaries, or an enrolled actuary under the Employees’ Retirement Income Security Act of 1974.

(2) The payment of retirement benefits ordered forfeited shall be stayed pending any appeal of the conviction. If the conviction is reversed on final judgment, no retirement benefits shall be forfeited.

61.552 Service credit regained or obtained - Purchase of current service and service credit - Interest paid - Delayed contribution - Installment payments.

The employer shall pay to the retirement system in which he participates a delayed contribution payment, as determined by the board's actuary. The employee may obtain credit for employment with a business development corporation only if the Kentucky Retirement Systems receives a favorable private letter ruling from the United States Internal Revenue Service or a favorable opinion letter from the United States Department of Labor. Payment may be by lump sum or the employee may pay by increments.

(6) After August 1, 2000, service credit obtained under the subsections of this section which do not require the employee to have a minimum number of years of service credit to be eligible to make a purchase shall be disallowed and the recontribution of refund, including interest as determined by the board or other payment, if any, shall be paid to the member if the member does not obtain for service performed six (6) months' additional current service credit in one (1) of the state-administered retirement systems. The service requirement shall be waived if the member dies or becomes disabled as provided for by KRS 16.582 or 61.600.
(7) The members shall not receive benefit of service for the same period of time in another public defined benefit retirement fund.

(8) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months' service if age sixty-five (65) or at least sixty (60) months' service if under age sixty-five (65) in the retirement systems administered by the Kentucky Retirement Systems, who formerly worked for a state university in a position which would have qualified as a regular full-time position had the university been a participating department, and who did not participate in a defined benefit or defined contribution retirement program at the university may obtain credit in the employee's account in the County Employees Retirement System, the Kentucky Employees Retirement System, or the State Police Retirement System for prior and current service by paying either retirement system a delayed contribution payment for the service he would have received had his period of university employment been covered by the County Employees, Kentucky Employees Retirement System, or State Police Retirement System. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer. Payment may be by lump sum, or the employee may pay by increments.

(9) (a) Effective August 1, 1980, any county participating in the County Employees Retirement System may purchase current service, between July 1, 1958, and participation date of the county, for present employees of the county who have obtained coverage under KRS 78.540(2);
(b) Effective July 1, 1973, any department participating in the Kentucky Employees Retirement System may purchase current service between July 1, 1956, and participation date of the department, for present employees of the department who were employees on the participation date of the department and elected coverage under KRS 61.525(2);
(c) Cost of the service credit purchased under this subsection shall be determined by computing the discounted value of the additional service credit based on an actuarial formula recommended by the board's consulting actuary and approved by the board. A department shall make payment for the service credit within the same fiscal year in which the option is elected. The county shall establish a payment schedule subject to approval by the board for payment of the service credit. The maximum period allowed in a payment schedule shall be ten (10) years with interest at the rate actuarially assumed by the board; however, a shorter
period is desirable and the board may approve any schedule provided it is not longer than a ten (10) year period;

(d) If a county or department elects the provisions of this subsection, any present employee who would be eligible to receive service credit under the provisions of this subsection and has purchased service credit under subsection (4) or (5) of this section shall have his payment for the service credit refunded with interest at the rate paid under KRS 61.575 or 78.640;

(e) Any payments made by a county or department under this subsection shall be deposited to the retirement allowance account of the proper retirement system and these funds shall not be considered accumulated contributions of the individual members.

(10) Interest paid by a member of the Kentucky Employees Retirement System, County Employees Retirement System, or State Police Retirement System under this section or other similar statutes under KRS 16.510 to 16.652, KRS 61.515 to 61.705, or KRS 78.520 to 78.852 prior to June 19, 1976, shall be credited to the individual member's contribution account in the appropriate retirement system and considered as accumulated contributions of the member.

(11) Employees who served as assistants to officers and employees of the General Assembly who have at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by Kentucky Retirement Systems and who were unable to acquire service under KRS 61.510(20) may purchase credit for the service performed after January 1, 1960. Service credit under this section shall be obtained by the payment of a delayed contribution which shall not be picked up by the employer as described in KRS 61.560(4).

(12) (a) Effective August 1, 1988, any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by Kentucky Retirement Systems may purchase service credit for interim, seasonal, emergency, or temporary employment or part-time employment averaging one hundred (100) or more hours of work per month on a calendar or fiscal year basis. If the average number of hours of work is less than one hundred (100) per month, the member shall be allowed credit only for those months he receives creditable compensation for one hundred hours of
work. The cost will be determined as a delayed contribution payment for the period of time involved, which shall not be picked up by the employer as described in KRS 61.560(4).

(b) Any noncertified employee of a school board who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by Kentucky Retirement Systems may purchase service credit for part-time employment prior to the 1990-91 school year which averaged eighty (80) or more hours of work per month on a calendar or fiscal year basis by paying to the County Employees Retirement System a delayed contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 78.610(4), by the employer. Payment may be by lump sum or the employee may pay by increments. If the average number of hours of work is less than eighty (80) per month, the noncertified employee of a school board shall be allowed credit only for those months he receives creditable compensation for eighty (80) hours of work. The cost will be determined as a delayed contribution payment, which shall not be picked up by the employer as described in KRS 78.610(4).

(13) A retired member, who is contributing to one (1) of the state-administered retirement programs under the provisions of KRS 61.637(1) to (4) and purchases service credit under this section in the system or systems from which he is retired, shall have his retirement allowance recomputed:

(a) Upon termination from employment, if the member is contributing to the same system or systems from which he was retired; or

(b) Upon completion of six (6) months' service credit as required under subsection (6) of this section, if the member is contributing to a system other than the system or systems from which he is retired.

(14) Any employee participating in one (1) of the systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by Kentucky Retirement Systems may obtain credit for prior or current service for any period of approved educational leave, or for agency approved leave to work for a work-related labor organization if the agency subsequently participated in the County
Employees Retirement System, by paying to the respective retirement system a delayed contribution payment. The employee may also obtain credit for agency-approved leave to work for a work-related labor organization if the agency subsequently participated in the County Employees Retirement System, but only if the Kentucky Retirement Systems receives a favorable private letter ruling from the United States Internal Revenue Service or a favorable opinion letter from the United States Department of Labor. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer, and shall be deposited to the individual member's account.

(15) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by Kentucky Retirement Systems may obtain credit for prior or current service for any period of authorized maternity leave, unpaid leave authorized under the Federal Family and Medical Leave Act, or for any period of authorized sick leave without pay, by paying to the respective retirement system a delayed contribution payment. The delayed contribution payment shall not be picked up, as described in KRS 61.560(4), by the employer, and shall be deposited to the individual member's account.

(16) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems may purchase service credit under any of the provisions of KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 by making installment payments in lieu of a lump-sum payment.

(a) The cost of the service shall be computed in the same manner as for a lumpsum payment which shall be the principal; and interest, at the actuarial rate in effect at the time the member elects to make the purchase compounded annually, shall be added for the period that the installments are to be made. Multiple service purchases may be combined under a single installment purchase; however, no employee may make more than one (1) installment purchase at the same time. Once multiple service purchases have been combined in an installment purchase, the employee may not separate the purchases or pay a portion of one (1) of the purchases. The employee may elect to stop the installment payments by notifying the retirement system; may have the installment purchase recalculated to add one (1) or more additional service purchases; or may pay by lump sum the remaining principal.
(b) One (1) year of installment payments shall be made for each one thousand dollars ($1,000) or any part thereof of the total cost, except that the total period allowed for installments shall not be less than one (1) year and shall not exceed five (5) years.

(c) The employee shall pay the installments by payroll deduction. Upon notification by the retirement system, the employer shall report the installment payments either monthly or semimonthly continuously over each twelve (12) month period at the same time as, but separate from, regular employee contributions on the forms or by the computer format specified by the board. The payments made under this subsection shall be considered accumulated contributions of the member and shall not be picked up by the employer pursuant to KRS 61.560(4) and no employer contributions shall be paid on the installments.

(d) The retirement system shall determine how much of the total cost represents payment for one (1) month of the service to be purchased and shall credit one (1) month of service to the member's account each time this amount has been paid. The first service credited shall represent the first calendar month of the service to be purchased and each succeeding month of service credit shall represent the succeeding months of that service.

(e) If the employee elects to stop the installment payments, dies, retires, or does not continue employment in a position required to participate in the retirement system, the member, or in the case of death, the beneficiary, shall have sixty (60) days to pay the remaining principal of the purchase by lump sum, except that payment by the member shall be made prior to the effective retirement date. If the member or beneficiary does not pay the remaining cost, the retirement system shall refund to the member or the beneficiary the payment, payments, or portion of a payment that does not represent a full month of service purchased.

(f) If the employer does not report installment payments on an employee for sixty (60) days, except in the case of employees on military leave or sick leave without pay, the installment purchase shall cease and the retirement system shall refund to the employee the payment, payments, or portion of a payment that does not represent a full month of service purchased. Installment payments of employees on military leave or sick leave without pay shall be
suspended during the period of leave and shall resume without recalculation upon the employee's return from leave.

(g) If payments have ceased under paragraph (e) or (f) of this subsection and the member later becomes a participating employee in one (1) of the three (3) systems administered by Kentucky Retirement Systems, the employee may complete the adjusted original installment purchase by lump sum or installment payments. If the employee elects to renew the installment purchase, the cost of the remaining service shall be recalculated in accordance with paragraph (a) of this subsection. If the original installment purchase was for multiple service purchases, the employee may not separate those purchases under a new installment purchase.

(17) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems may purchase service credit under any of the provisions of KRS 16.510 to 16.652, 61.515 to 61.705, or 78.520 to 78.852 by transferring funds through a direct trustee-to-trustee transfer as permitted under the applicable sections of the Internal Revenue Code and any regulations or rulings issued thereunder, or through a direct rollover as contemplated by and permitted under 26 U.S.C. sec. 401(a)(31) and any regulations or rulings issued thereunder. Service credit may also be purchased by a rollover of funds pursuant to and permitted under the rules specified in 26 U.S.C. sec. 402(c) and 26 U.S.C. sec. 408(d)(3). The Kentucky Retirement Systems shall accept the transfer or rollover to the extent permitted under the rules specified in the applicable provisions of the Internal Revenue Code and any regulations and rulings issued thereunder. The amount shall be credited to the individual member's contribution account in the appropriate retirement system and shall be considered accumulated contributions of the member.

(18) After August 1, 1998, any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who is age sixty-five (65) or older and has forty-eight (48) months of service credit or, if younger, who has sixty (60) months of service credit in systems administered by Kentucky Retirement Systems may purchase credit in the system in which the employee has the service credit for up to ten (10) years service in a regular full-time position that was credited to a state or local government-administered public defined benefit plan in another state other than a defined benefit plan for teachers. The employee shall pay a delayed contribution payment. Payment may be by lump sum, or
the employee may pay by increments. The employee may transfer funds directly from the other state's plan if eligible to the extent permitted under subsection (17) of this section and to the extent permitted by the other state's laws and shall provide proof that he is not eligible for a retirement benefit for the period of service from the other state's plan.

(19) After August 1, 1998, any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems, who has sixty (60) or more months of service in the State Police Retirement System or in a hazardous position in the Kentucky Employees Retirement System or the County Employees Retirement System, may purchase credit in the system in which the employee has the sixty (60) months of service credit for up to ten (10) years of service in a regular full-time position that was credited to a defined benefit retirement plan administered by a state or local government in another state, if the service could be certified as hazardous pursuant to KRS 61.592. The employee shall pay a delayed contribution payment. Payment may be by lump sum or by increments. The employee may transfer funds directly from the other unit of government's plan if eligible to the extent permitted under subsection (17) of this section and to the extent permitted by the other state's laws, and the employee shall provide proof that he is not eligible for a retirement benefit for the period of service from the other unit of government's plan.

(20) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by Kentucky Retirement Systems and who has completed service as a volunteer in the Kentucky Peace Corps, created by KRS 154.01-720, may purchase service credit for the time served in the corps by making delayed contribution payments.

(21) An employee participating in any retirement system administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65), or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by Kentucky Retirement Systems, and who was formerly employed in a regional community mental health and mental retardation services program, organized and operated under the provisions of KRS 210.370 to 210.480, which does not participate in a state-administered retirement system may obtain credit for the period of his service in the regional community mental health and mental retardation program, by paying to the state retirement system in
which he participates a delayed contribution payment. Payment to one (1) of the retirement systems administered by the Kentucky Retirement Systems may be made by lump sum or in increments.

(22) An employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by the Kentucky Retirement Systems, who was employed by a vocational technical school in a noncertified part-time position averaging eighty (80) or more hours per month, determined by using the number of months actually worked within a calendar or fiscal year, may purchase service credit in the Kentucky Employees Retirement System. The cost of the service shall be a delayed contribution payment, which shall not be picked up by the employer as described in KRS 61.560(4).

(23) (a) Any person who is entitled to service credit for employment which was not reported in accordance with KRS 16.543, 61.543, or KRS 78.615 may obtain credit for the service by paying the employee contributions due within six (6) months of notification by the system. No interest shall be added to the contributions. The service credit shall not be credited to the member's account until the employer contributions are received. If a retired member makes the payment within six (6) months, the retired member's retirement allowance shall be adjusted to reflect the added service after the employer contributions are received by the retirement system.

(b) Any employee participating in one (1) of the state-administered retirement systems who is entitled to service credit under paragraph (a) of this subsection and who has not repaid the employee contributions due within six (6) months of notification by the system may regain the credit after the six (6) months by paying to the system the employee contributions plus interest at the actuarially assumed rate from the date of initial notification under paragraph (a) of this subsection. Service credit shall not be credited to the member's account until the employer contributions are received by the retirement system. The payments shall not be picked up, as described in KRS 61.560(4), by the employer.

(24) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65) or at least
sixty (60) months of service if under age sixty-five (65) in the systems administered by the Kentucky Retirement Systems may purchase service credit for employment with a public agency that would have been eligible to participate under KRS 61.520 but which did not participate in the Kentucky Employees Retirement System or a political subdivision that would have been eligible to participate under KRS 78.530 but which did not participate in the County Employees Retirement System if the former public agency or political subdivision has merged with or been taken over by a participating department or county. The cost of the service shall be determined as a delayed contribution payment for the respective retirement system. Payment may be made by lump sum or in increments. The payment shall not be picked up, as described in KRS 61.560(4) or KRS 78.610(4), by the employer.

(25) Any employee participating in one (1) of the retirement systems administered by the Kentucky Retirement Systems prior to July 15, 2002, who has accrued at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by the Kentucky Retirement Systems and who has total service in all state-administered retirement systems of at least one hundred eighty (180) months of service credit may purchase a combined maximum total of five (5) years of retirement service credit which is not otherwise purchasable under any of the provisions of KRS 16.510 to 16.652, KRS 61.510 to 61.705, and KRS 78.510 to 78.852. The purchase price for the retirement service credit shall be calculated and paid for as a delayed contribution payment. The payment shall not be picked up, as described in KRS 16.545(4), KRS 61.560(4), KRS 78.610(4), by the employer, and the employee's payment shall be paid into the individual member's contribution account in the appropriate retirement system and shall be considered accumulated contributions of the member. Payment by the member may be by lump sum or by increments. The service purchased under this subsection shall not be used in determining a retirement allowance until the member has accrued at least two hundred forty (240) months of service, excluding service purchased under this subsection. If the member does not accrue at least two hundred forty (240) months of service, excluding service purchased under this subsection, upon retirement, death, or written request following termination, the payment, plus interest as provided in KRS 61.575, shall be refunded.

(26) An employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems, who has at least
forty-eight (48) months of service if age sixty-five (65), or at least sixty (60) months of service if under age sixty-five (65), in the systems administered by Kentucky Retirement Systems, may obtain credit in the County Employees Retirement System for the period of that employee's service with a community action agency created under KRS 273.405 to 273.453 if that service was not covered by a state-administered retirement system. The member shall pay to the retirement system a delayed contribution payment. Payment may be made by lump sum or in increments. The payment shall not be picked up, as described in KRS 61.560(4) or 78.610(4), by the employer.

(27) Any employee participating in one (1) of the retirement systems administered by Kentucky Retirement Systems who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the retirement systems administered by the Kentucky Retirement Systems may obtain current service credit for up to forty-eight (48) months for his or her period of service as a Domestic Relations Commissioner by paying to the retirement system a delayed contribution payment no later than December 31, 2002. Payment may be made by lump sum or under an installment agreement. The payment shall not be picked up, as described in KRS 61.560(4), by the employer, and shall be deposited to the individual member's account.

(28) The board of trustees is authorized to establish a program, subject to a favorable ruling from the Internal Revenue Service, to provide for the purchase of service credit under any of the provisions of KRS 16.510 to 16.552, 61.515 to 61.705, and 78.520 to 78.852, pursuant to the employer pick-up provisions in 26 U.S.C. sec. 414(h)(2).

(29) An employee may obtain credit for regular full-time service with an agency prior to August 1, 1998, for which the employee did not receive credit due to KRS 61.637(1), by paying a delayed contribution. The payment shall not be picked up by the employer, except as provided in subsection (28) of this section, and shall be credited to the employee's second retirement account. Service credit obtained under this subsection shall not be used in determining benefits under KRS 61.702. The employee may purchase credit for service prior to August 1, 1998, if:

(a) The employee retired from one (1) of the retirement systems administered by the Kentucky Retirement Systems and was reemployed prior to August 1, 1998, earning less than the maximum permissible earnings under the Federal Social Security Act;
(b) The employee elected to participate in a second retirement account effective August 1, 1998, in accordance with KRS 61.637(7); and

(c) The employee has at least forty-eight (48) months of service if age sixty-five (65), or at least sixty (60) months of service if under age sixty-five (65), in a second account in the systems administered by Kentucky Retirement Systems.

(30) An employee participating in one (1) of the retirement systems administered by the Kentucky Retirement Systems, who has at least forty-eight (48) months of service if age sixty-five (65) or at least sixty (60) months of service if under age sixty-five (65) in the systems administered by the Kentucky Retirement Systems, may obtain credit for the service in a regular full-time position otherwise creditable under the Kentucky Employees Retirement System, the County Employees Retirement System, or the State Police Retirement System for service in the United States government, other than service in the Armed Forces, for which service is not otherwise given, by paying to the system a delayed contribution payment. Payment may be made by lump sum or in increments. No payment made pursuant to this section shall be picked up by the employer, as described in KRS 61.560(4).

61.680 Consent of employees to deductions - Consolidation for determination of eligibility and determination of benefits - Waiver - Choice among retirement systems - Reciprocal arrangements.

(1) Prior to August 1, 1982, every employee shall be deemed to consent and agree to any deduction from his compensation required by KRS 6.500 to 6.535, 16.510 to 16.652, 61.510 to 61.692, 78.510 to 78.852, and to all other provisions thereof. Thereafter, employee contributions shall be picked up by the employer pursuant to KRS 61.560(4).

(2) (a) Notwithstanding any other provisions of KRS 6.500 to 6.535, 16.510 to 16.652, 61.510 to 61.692, 78.510 to 78.852 and 161.220 to 161.714, upon death, disability, or service retirement, a member’s accounts under the Legislators’ Retirement Plan, State Police Retirement System, Kentucky Employees Retirement System, County Employees Retirement System, and Teachers’ Retirement System, except for service prohibited by KRS 161.623(2), shall be consolidated for the purpose of determining eligibility and amount of benefits. Vested service credit in a retirement system, other than the Teachers’ Retirement System, sponsored by a Kentucky institution of higher
education and accepted by the Kentucky Employees Retirement System or the County Employees Retirement System, may be used to determine eligibility for twenty-seven (27) year retirement but not the amount of benefits. The computation of benefits shall be based on the applicable formula in each system and service credit in each system, but the final compensation, excluding compensation earned under KRS 161.155(9), shall be determined as if all service were in one (1) system. If the member has prior service in more than one (1) system, he shall obtain at least twelve (12) months’ current service in each system in which he has prior service in order to validate the prior service in each system for purposes of determining consolidated benefits under this section. Upon the determination of benefits, each system shall pay the applicable percentage of total benefits.

(b) The provisions of paragraph (a) of this subsection shall be waived if the member notifies the system of his desire to maintain separate retirement accounts in the State Police Retirement System, Kentucky Employees Retirement System, or County Employees Retirement System.

(c) If the member has not contributed at least one (1) year in a system in which he has prior service, his current service in the system shall be valid for purposes of determining eligibility and in computation of benefits on a consolidated basis.

(3) A member with service credit in the Kentucky Employees Retirement System, State Police Retirement System, or the County Employees Retirement System who becomes the holder of an office entitling him to membership in the Judicial Retirement Plan or the Legislators’ Retirement Plan, but who does not elect within thirty (30) days after taking office in such service to participate in the plan, in accordance with KRS 6.505 or 21.360, shall be deemed to have elected to retain membership in the system in which he is a member, either the Kentucky Employees Retirement System, State Police Retirement System, or the County Employees Retirement System. In that event, the agency employing the member shall withhold employee contributions, or picked-up employee contributions after August 2, 1982, make employer contributions and remit these contributions to the system in which the member retained his membership. Any person entitled to membership in the Judicial Retirement Plan or the Legislators’ Retirement Plan, who does not elect within thirty (30) days after taking office to
participate in the plan, in accordance with KRS 6.505 or 21.360, and who at the time of taking office is not a contributing member of, or does not have service credit in, any of the retirement systems mentioned in this section, or the Teachers’ Retirement System, shall participate in the Kentucky Employees Retirement System. A member of one (1) of the state-administered retirement plans who ceases to contribute to the plan as provided in KRS 21.360 and who is employed in a nonelected position by an agency participating in the Kentucky Retirement Systems shall be deemed to have elected membership in the system in which the employer of the nonelected position participates. A member of one (1) of the state-administered retirement plans who ceases to contribute to the plan as provided in KRS 21.360 and who is not employed in a nonelected position by an agency participating in the Kentucky Retirement Systems shall be deemed to have elected membership in the Kentucky Employees Retirement System.

(4) Prior to July 1, 1976, a person entering the service of an employer participating in the Kentucky Employees Retirement System or the County Employees Retirement System with service credit in the Teachers’ Retirement System and who desires to retain membership in the Teachers’ Retirement System, and who is permitted by that system to continue, shall be exempt from participating in the Kentucky Employees Retirement System or the County Employees Retirement System.

(b) Any person who has elected to retain membership in the Teachers’ Retirement System as provided in paragraph (a) of this subsection may cancel his election and participate in the system under which his position would normally participate, if he elects to cancel his option prior to January 1, 1977.

(c) Any member of the General Assembly who upon election is a contributing member of the Teachers’ Retirement System and who does not elect within thirty (30) days after taking office to participate in the Legislators’ Retirement Plan, in accordance with KRS 6.505, shall during his term of office participate in the Kentucky Employees Retirement System unless an election to retain membership in the Teachers’ Retirement System is filed in writing within ninety (90) days after his term of office begins. No contributions may be made to the Teachers’ Retirement System for the same period of service under the Legislators’ Retirement Plan or the Kentucky Employees Retirement System as a member
of the General Assembly, but contributions made to the Teachers’ Retirement System while a member of the General Assembly shall be transferred to the Legislators’ Retirement Plan, as provided for in KRS 6.535, when the member elects to join the Legislators’ Retirement Plan, and service credit in the Legislators’ Retirement Plan shall be granted as provided for in KRS 6.505(3).

(5) Effective July 1, 1974, any member of the Kentucky Employees Retirement System or County Employees Retirement System who is working in a position covered by one (1) of these retirement systems and his employee contributions, service credit and employer contributions made on his behalf are being transferred to the other retirement system shall contribute to the system in which his employer participates, or after August 1, 1982, the employer shall pick up the employee contributions, and no further contributions or service credit shall be transferred to the system in which he elected to retain membership, as subsection (2) of this section eliminates the necessity of the transfers.

(6) Any member of the Kentucky Employees Retirement System or County Employees Retirement System who is working in more than one (1) position covered by the same retirement system, shall have his wages and contributions consolidated and his retirement account administered as a single account. If part-time positions are involved, an accumulation of all hours worked within the same retirement system shall be used to determine eligibility under KRS 61.510(21).

(7) Notwithstanding the provisions of subsection (2) of this section, a person who does not have the amount of service required for service retirement in the State Police Retirement System, Kentucky Employees Retirement System, County Employees Retirement System, Legislators’ Retirement Plan, or Teachers’ Retirement System, but who is a member of one (1) of the systems or is a former member of one (1) or more of the systems with valid service credit therein, shall become eligible for service retirement benefits attributable to the amount of his actual service credit in each system in which he has service credit when his combined service credit in all the systems, plus any service credit he has in the Judicial Retirement Plan, is equal to that required for service retirement in each respective system. The computation of benefits shall be based on the applicable formula in each system and service credit in each system, except that total service in all systems, unless prohibited by KRS 161.623(2), shall be used to determine the reduction for early retirement, if any. The final compensation shall be determined
by using the creditable compensation reported to the State Police Retirement System, Kentucky Employees Retirement System, County Employees Retirement System, Legislators’ Retirement Plan, or Teachers’ Retirement System and only as much of the compensation earned in the Judicial Retirement Plan as is needed to satisfy the final compensation requirement applicable in the respective retirement systems.

(8) Each retirement system from which the member retires shall pay a retirement allowance upon receipt of required forms and documents, except that no retirement system shall pay a retirement allowance or annuity until all forms and documents are filed at all retirement systems in compliance with each system’s requirements.

The rate of compensation for each unused sick leave day shall be based on a percentage of the daily salary rate calculated from the employee's or teacher's last annual salary, not to exceed thirty percent (30%). Payment for unused sick leave days shall be incorporated into the annual salary of the final year of service; provided that the member makes the regular retirement contribution for members on the sick leave payment. Upon subsequent request, such leave may be renewed by the board. A board of education may pay a sum of money equivalent to all or any portion of salary to a teacher or superintendent who has been granted leave for educational or professional purposes if the person taking said leave agrees in writing to return to employment with the board for no less than two (2) years.

(2) Without request, a board of education may grant leave of absence and renewals thereof to any teacher or superintendent because of physical or mental disability, but such teacher or superintendent shall have the right to a hearing and appeal on such unrequested leave of absence or its renewal in accordance with the provisions for hearing and appeal in KRS 161.790.

(3) Upon the return to service of a teacher or superintendent at the expiration of a leave of absence, he shall resume the contract status which he held prior to such leave.

(4) Payments to any teacher or superintendent under this section by a local district are intended and presumed to be for and in consideration of services rendered and for the benefit of the common schools and such payments do not affect the eligibility of any school district to share in the distribution of funds from the public school funds as established in KRS Chapter 157.

(1) In a proceeding for dissolution of the marriage or for legal separation, or in a proceeding for disposition of property following dissolution of the marriage by a court which lacked personal jurisdiction over the absent spouse or lacked jurisdiction to dispose of the property, the court shall assign each spouse’s property to him. It also shall divide the marital property without regard to marital misconduct in just proportions considering all relevant factors including:
(a) Contribution of each spouse to acquisition of the marital property, including contribution of a spouse as homemaker;
(b) Value of the property set apart to each spouse;
(c) Duration of the marriage; and
(d) Economic circumstances of each spouse when the division of property is to become effective, including the desirability of awarding the family home or the right to live therein for reasonable periods to the spouse having custody of any children.

(2) For the purpose of this chapter, “marital property” means all property acquired by either spouse subsequent to the marriage except:
(a) Property acquired by gift, bequest, devise, or descent during the marriage and the income derived therefrom unless there are significant activities of either spouse which contributed to the increase in value of said property and the income earned therefrom;
(b) Property acquired in exchange for property acquired before the marriage or in exchange for property acquired by gift, bequest, devise, or descent;
(c) Property acquired by a spouse after a decree of legal separation;
(d) Property excluded by valid agreement of the parties; and
(e) The increase in value of property acquired before the marriage to the extent that such increase did not result from the efforts of the parties during marriage.

(3) All property acquired by either spouse after the marriage and before a decree of legal separation is presumed to be marital property, regardless of whether title is held individually or by the spouses in some form of co-ownership such as joint tenancy, tenancy in common, tenancy by the entirety, and community property. The presumption of marital property is overcome by a showing that the property was acquired by a method listed in subsection (2) of this section.

(4) If the retirement benefits of one spouse are excepted from classification as marital property, or not considered as an economic circumstance during the division of marital property, then the retirement benefits of the other spouse shall also be excepted, or not considered, as the case may be. However, the level of exception provided to the spouse with the greater retirement benefit shall not exceed the level of exception provided to the other spouse. This exemption shall also apply to the operation of the Federal Bankruptcy Code, as permitted by 11 U.S.C. sec. 522. This exemption shall not apply to any amounts contributed to an individual retirement
